GENERAL INFORMATION

ORDER EARLY. Send in your orders as early as possible to prevent disappointment as supply is limited on some varieties.

POSTAGE OR DELIVERY CHARGES are prepaid on all orders for \$2.50 or over. For orders of less than \$2.50

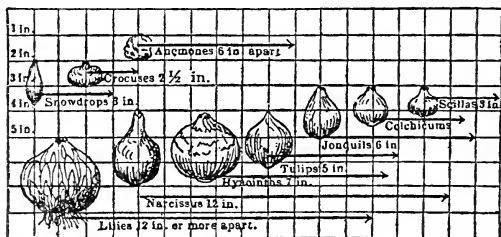

DELIVERY. Some varieties of bulbs can be transplanted any time of the year, but as a general rule summer and fall planting is required. Orders will be filled as soon as stock is ready.
add 25 cents for packing and postage.

Prices.—At prices quoted, 6 bulbs or more will be supplied at the dozen rate, while 25 or more will be supplied at the 100 rate.

Terms of Payment.—Our terms of payment are invariably cash with order.

DEPTH HOLLAND BULBS SHOULD BE PLANTED

Many of our customers are frequently puzzled to know the proper depth and distance apart at which bulbs should be planted. The accompanying diagram conveys the information much more clearly and briefly than any description could. The chart will bear careful study. Outdoor planting should be done early in the fall to secure healthy plants, vigorous foliage, and beautiful flowers.

Guarantee.—We guarantee our bulbs to be true to name and reach you in healthy growing condition. In case they do not prove to be so we will replace same free of charge, or will refund the amount paid, but it is mutually agreed that we shall not at any time be liable for a greater amount than the original cost. All bulbs shipped are supposed to be free from all insects and disease. In case bulbs should for any reason be condemned by your Horticulture Commissioner, we will gladly refund the money. As most of the failures with bulbs are due to causes beyond our control, such as unfavorable weather, too deep or too shallow planting, strong fertilizers, slugs, etc., we accept no responsibilities beyond those mentioned above. By placing order, purchaser is considered to agree with these terms.

ACHIMENES

Profuse blooming tuberous plants for greenhouse or conservatory. Closely allied to Gloxinias and require same culture. Three or more should be planted in a pot. They flower in the summer months for a period of 8 to 10 weeks. The tubers are very small. Each Doz.

GALATEA. Large deep lavender35	3.50
MAGNIFICA. Beautiful violet30	3.00
PURITY. Large pure white25	2.50
PURPLE QUEEN. Fine rich purple30	3.00
SUPREME. Lavender with light center35	3.50
Superfine mixture		2.00
Collection of 3 each variety; 15 good strong tubers for		3.25

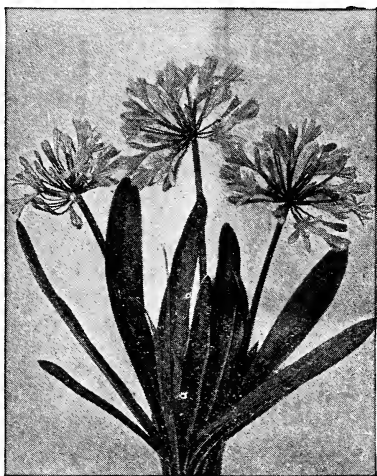

ACIDANTHERA

BICOLOR... Lovely fragrant flower; creamy white with chocolate blotch on the inside. Native to South Africa. About 15 inches high and very rare. Grows outside with protection. Supposed to be the intermediate link between Gladiolus and Ixia. Supply limited.	Each	Doz.
First size75	7.50
Second Size50	5.00

ACONITUM (Monkshood)

Lovely hooded flowers blooming from midsummer to late fall. Grow in either sun or shade. The tubers are poisonous. Delivery from late fall to early spring. Each Doz.

AUTUMNALIS. Large dark blue flowers40	4.00
FISHERI. Dwarf, dark blue. Hardy25	2.50
WILSONI. Beautiful mauve. Tall. Very rare50	5.00

AGAPANTHUS (African Lily)

UMBELLATUS (Blue Lily of the Nile). Lovely Summer and Fall flowering plant of the Amaryllis family, bearing a large number of tall, beautiful flowers in umbels. Has long blooming period. Desirable for outdoor decoration. Require protection where winters are severe. Can be grown in tubs for the conservatory or terrace.

Strong root divisions	Each	Doz.
Medium size divisions75	7.50
Established plants in tubs, \$3.00; \$4.00; \$5.00; \$10.00; \$15.00; \$20.00; \$25.00 and \$50.00. Shipped express charges collect.	.35	3.50
	Each	Doz.

ALBUS. Same as above, only having white flowers. Strong divisions	1.00	10.00
--	------	-------

AGLAONEMA

COSTATUM. A dwarf-growing Aroid. suitable for the conservatory or window garden. Very compact heart-shaped leaves of dark, shining green, with white midrib and scattering blotches	Each	
		1.00

ALLIUM

THIBETICA. Dwarf. Flowers lilac-mauve. Each Doz.
Blooms in early summer. Rare type, fine for
rock garden50 5.00

OTHER SPECIES OF ALLIUM FOR FALL DELIVERY

ACUMINATUM. Native. Upright heads of
bright red flowers. Height 10 to 12 inches75 7.50
BREVISTYLUM (Alpine Onion). Erect umbels of
showy deep rose flowers with stems a foot
tall. Requires most humus soil 3.50

ALOCASIA

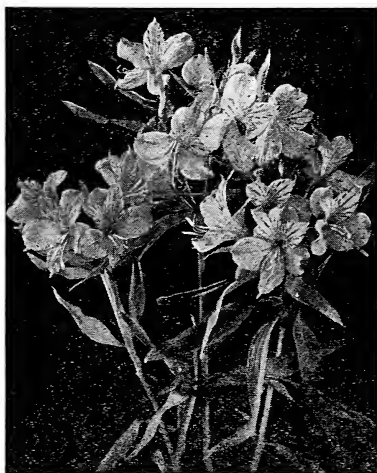

Tropical plants suitable for patio or water gardens. Hardy
only in the far South. Otherwise use only as Summer
bedding plants. Each Doz.

INDICA. Fine subject for its stiff, arrow-like
leaves; deep reddish-purple and lead-green col-
or 1.00 10.00
MACHOHIZA. Tall green leaves. Very erect and
stiff75 7.50

ALPINA (Shell Flower)

Tuberous plant, semi-tropical; same climatic requirements
as Alocasia. The green leaves have a spicy odor when
crushed. Each Doz.

FORMOSANA. Pure white flowers, slightly vein-
ed crimson. Dainty but striking. Strong divi-
sions 1.00 10.00
NUTANS. Mottled yellow-orange flowers suggest
sea-shells. Strong division 1.00 10.00

ALSTROEMERIA (Peruvian Lily)

A native of Peru with a great many lovely spikes of
golden yellow, orange and various shades of pink to rose
flowers; some beautifully spotted. Excellent as cut flowers
and keep for a long time. Should not be moved unless
necessary as they do not bloom until fully established. Re-
quire sunny location, rich soil and plenty of moisture, but
with good drainage. A mulch of well rotted manure is
recommended for them. They are not hardy in the east, but
could be stored in barely moist sawdust in the cellar during
the winter. Do not disturb the roots when lifting. Each Doz.

AURANTIACA. Beautiful shade of orange with
brown spots25 2.50
SPLENDENS. Lovely golden yellow30 3.00

AMAR-CRINUM

HOWARDI. A true bigeneric hybrid produced by
crossing Crinum Moorei on Amaryllis Belladonna.
Soft pink flowers on stems three feet tall
are freely produced during the summer months.
Requires the same culture as the various Crin-
ums or Amaryllis. In cold sections it can be
grown successfully in tubs for the conservatory
or sun porch. Stock limited 5.00

AMARYLLIS

Lovely Lily-like flowers, shading from delicate pink to pale rose. Tall stems, no foliage while blooming, therefore combines exquisitely with blue Agapanthus which blooms at the same time, providing foliage. This combination makes an effective clump or striking border. In the warm sections of the south and on the Pacific coast the bulbs bloom freely out of doors and should be planted with the tops even with or a little above ground. Pot culture is suggested for colder sections.

	Each	Doz.
BELLADONA MAJOR: Beautiful pink; early.		
Bulbs should not be planted too deep. Large size	.50	5.00
Medium size	.25	2.50
BELLADONA MINOR. Later than Major. Smaller flowers and deeper pink. Large size	.50	5.00
BELLADONA ROSEA. Later than both the preceding. Rose pink. Very scarce	1.00	

AMOMUM

	Each	Doz.
CARDAMOMUM. Decorative for its foliage only.		
Is of particular interest for the thick, leathery leaves which, when crushed, give out a pleasing "gingery" odor. Semi-tropical. Requires considerable moisture	.75	7.50

AMORPHOPHALLUS

(Devil's Tongue)

RIVIERI. A curious and interesting Aroid, which blooms without soil or moisture when the bulb is 4 years old. Resembles a gigantic black Calla and appears before the leaves on stems rising from 5 to 6 feet high; the flower is soon followed by interesting massive-looking foliage which is supported on thick prettily marked stems.

	Each	Doz.
Strong flowering 4 year old bulbs	10.00	110.00
Strong 3 year old bulbs	4.50	50.00
Strong 2 year old bulbs	2.75	30.00
Strong 1 year old bulbs	1.25	12.50

ANDROSTEPHIUM-Wild Hyacinth

	Doz.	100
Pale blue flowers shaped like a small Daffodil, blooming in early Spring	3.50	27.50

ANEMONE CORONARIA

For Fall Planting

The blossoms of the De Caen anemones resemble poppies, the flowers are beautiful and come in a great varieties of dazzling blues and reds. They flower in the early spring and make a wonderful carpet for a bed or border. Plant the bulbs after soaking them overnight, 1 inch deep and 6 inches apart.

	Doz.	100
DE CAEN. Single mixed	.65	4.75
ST. BRIGID. Semi-double	.65	4.75

Novelties in finest named varieties:	Doz.	100
CHRYSANTHAE FLORA. Petal-like stamens	1.00	7.00
CORNFLOWER. A wonderful fully double variety of amethyst blue	2.00	15.00
KING OF SCARLETS. Brilliant red. Tall stem. Excellent cut flower. Double	2.00	15.00
HIS EXCELLENCY. Enormous single, scarlet flower with tall stiff stem	2.00	15.00
ROSETTE. Double pink and white flowers	2.00	15.00
THE GOVERNOR. Giant scarlet semi-double flower	2.00	15.00

ANEMONE JAPONICA (Windflower)

Lovely fall flowers in many colors. The blooms are similar in shape to the Spring flowering DeCaen type, but are much taller. They bloom from September until late November.

	Each	Doz.
ALBA. Pure single white; yellow center. 2 to 8 ft.20	2.00
ALICE. Rosy-pink, lilac center; large flowers25	2.50
BUHLER KIND. Early double white30	3.00
KRIEMHILDE. Double, rich pink25	2.50
MAX VOGEL. Double, rose pink30	3.00
PRINCE HENRY. Double red flowers; dwarf30	3.00
RUBRA. Beautiful rosy red; bright red stamens30	3.00
WHIRLWIND. Excellent double white flowers. 2 to 3 feet20	2.00
Collection of six named varieties, all labelled separately, our selection, for		\$1.25

ANTHERICUM LILIAGO

(ST. BERNARD LILY)

Each Doz.

Pure white flowers of the Lily family. Long grassy leaves. Require sun and a rich, damp soil. Fall and spring delivery

.40 4.00

ANTHOLYZA

Fall Delivery

PANICULATA. Red yellow flowers similar to Watsonias both in appearance and culture. Thrive in warm climates. Are not recommended for planting in Eastern States.25	2.50
AETHIOPICA. Dwarf. Flowers same as above25	2.50

ANTIGONON (Queen's Wreath)

Each Doz.

A tuberous-rooted climbing vine bearing coral pink flowers in great profusion during the late summer and early fall months. Require full sun and the warmer the better. Strong tubers

.40 4.00

APIO

TUBEROSA (Tuberous-rooted Wisteria). Clusters of rich deep purple flowers which have a delicious violet fragrance. Good for growing over trellises15	1.50
---	-----	------

ARISAEMA (Jack-in-the-Pulit)

Each Doz.

TRIPHYLLUM. Unique Aroid for shady nooks. Dwarf canopy lily. Flower in May, followed by attractive berries in late Summer25	2.50
--	-----	------

ARRHENATHERUM

Bulbosum variagatum. Dwarf form of ribbon grass with white and green leaves. Propagates from small bulbs40	4.00
---	-----	------

ARUMS

Arums are listed sometimes as Callas, one of which is Arum Pictum as "Black Calla."

These desirable plants are of easy culture, which can be used with good effect for outdoor planting, in mild climates, or are suitable as potted plants.

Each Doz.

ARUM CORNUTUM (Monarch of the East). This unique bulb was becoming very popular when horticultural restrictions prohibited importations into this country. In a dry state it will, in any ordinary living room temperature, throw up an odd growth of mottled gray foliage and stalk with a semblance of flower. This is accomplished without planting. The same bulb can then be planted outdoors when the weather warms up and will produce a beautiful green foliage plant	1.00	10.00
Second size50	5.00

For Fall Delivery Only

DRACUNCULUS (Dragon Arum). Producing large purple-red spathes with blue-black spadix. Palm-like foliage, with stems mottled black. Very odd	1.00	10.00
--	------	-------

	Each	Doz.
ITALICUM. Handsome species with green and white marked foliage. The spathe shaped white flowers are followed by scarlet berries in the early fall	1.00	10.00
PICTUM (Arum Pictum). Black Calla. Very Odd35	3.50

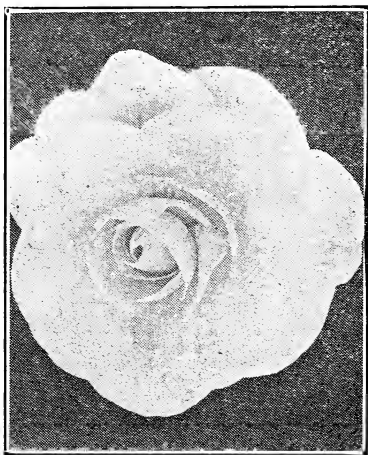

ASCLEPIAS

TUBEROSA. Umbels of bright orange colored flowers in midsummer. Requires sunny situation and rich, moist soil35	3.50
--	-----	------

BABIANA

For Fall Delivery

A curious flower blooming in spring with flowers which resemble the Freesia or Tritonia and require the same culture. Can be grown in pots. The name is from the Dutch for "baboon," as these animals eat the bulbs in the wilds of Africa.			Doz.	100
STRICTA (Blue Freesia). Colors from gentian-blue to wine-purple	1.50	10.00		
RUBRO-CYANEA. Lavender flowers, larger than the above type	2.50	17.50		

BEGONIAS (Tuberous Rooted)

Splendid pot plants for the house or greenhouse. Plant each bulb one inch deep in a 5 or 6-inch flower pot. For outdoor planting select a location that is protected and semi-shaded. Colors: Pink, red, rose, white, yellow, apricot, orange, copper, scarlet or mixed.

	Each	Doz.
GIANT SINGLES. Flowers are of mammoth size, often six inches across. Colors as above20	2.00
GIANT DOUBLES. So double that they often have the appearance of round balls of velvet-like petals. Colors as above25	2.50
CRISPA BEGONIA. An extra fine strain of single Begonia with fluted and ruffled edges. Colors same as singles25	2.50
GIANT CRISTATA. The most beautiful of all. Large, ruffled edge blooms with solid crested center. Called the doubled ruffled Begonia. Colors same as singles25	2.50
NARCISSIFLORA. The male blooms of this type resemble a large trumpet Daffodil. Mixed pastel shades. Supply limited75	7.50
PENDULA. Splendid for growing in hanging baskets or as individual specimens in pots where the branches drooping over the edge produce masses of attractive showy flowers. Choicest colors, mixed50	5.00
	Each	Doz.

BELAMCANDA (Blackberry Lily)

CHINENSIS. Large orange flowers, spotted brown, which last for only a short time. Belongs to the Iris family. The clusters of round, shining black seeds are said to resemble blackberries25	2.50
---	-----	------

BILLBERGIA

(TRANSVAAL LILY)

Each Doz.

NUTANS. Tropical plant with long spikes of rose and green flowers edged with green. Can be grown outside where warm or make ideal subjects for pot plants or hanging baskets. Require abundance of moisture during growing season, during the summer months. Sprinkling the foliage is also beneficial, but very little water is needed during the winter 1.00 10.00

BLOOMERIA

Fall Delivery

Doz. 100

Handsome umbels of bright yellow flowers on stems 12 to 15 inches tall. Native bulb 2.00 15.00

BOUSSINGAULTIA (Madeira Vine)

Each Doz.

BASELLOIDES. Rapid growing vine; heart shaped leaves of light green with racemes of feathery flowers, delightfully fragrant. Commonly called "Mignonette Vine"20 2.00

BRODIAEAS

Fall Delivery

These plants have a small bulb, producing grassy leaves near the ground, and very slender, but stiff, naked stems bearing a head of waxy flowers of great lasting quality. All are pretty. Their culture is the same as for Narcissi, and just as easy as for that flower. They are easily naturalized in almost any soil. Plant them about three inches deep, and leave them alone. They are especially happy under oak and deciduous trees, in crevices in rocks, or in rough, Doz. 100

COCCINEA (Floral Firecracker). The tubular flowers are a vivid crimson, tipped with pea-green, resembling a bunch of firecrackers 1.50 10.00

CROCEA. Has light yellow flowers in umbels50 7.50

GRANDIFLORA. Has a few large, glossy purple flowers of much beauty and great lasting qualities. The bulbs can be naturalized in any clay soil, especially if moist60 4.50

HENDERSONI. Bears many flowers in an umbel. The ground color is light with a deep purple band down the center of each petal75 5.50

IXIOIDES. Called "Golden Star," has an umbel like Hendersoni, but with flowers of a fine golden yellow on stems 6 to 8 inches high 60 4.50

LACTEA. Has a close umbel of milky white flowers60 4.50

LAXA. Is known as Blue Milla, and has a many flowered umbel of fine blue flowers. It is one of the best for naturalizing60 4.50

MULTIFLORA. Heads of many violet-colored flowers on tall, stout stems60 4.50

PURDYI. Flatly spreading flowers with recurved tips; reddish lilac75 5.50

STELLARIS. Low growing, starry blue flowers with white centers75 5.50

VOLUBILIS (Twisted Rope Lily). This type and the "Firecracker" are the most interesting of all. Flowers soft pink, in fine clusters and very lasting. The stems entwine any support as it grows 1.00 7.50

MIXED VARIETIES50 3.00

CALADIUM ESCULENTUM

(ELEPHANT'S EAR)

Each Doz.

Grand tropical plant. A favorite for specimens on the lawn. Height 3 to 4 feet35 3.50

FANCY-LEAVED CALADIUMS

Beautiful variegated-leaved plants adapted for pot culture or bedding if given sheltered position. Doz.

ALCAZAR. Light green border; bright red ribs and center 3.50

ARROW. Arrow shaped leaves, red ribs and green border, dark red leaf 3.50

BRUNSWICK. Whole leaf blotched bright pink. Crimson ribs 4.00

CHICADEE. Whole leaf spotted and blotched white. Red ribs. Tall 3.00

CANDIDUM. White ground, with strongly marked green ribs 3.50

DAISY. Green border, crinkled leaf, deep red ribs and center, edged old gold, spotted lighter red 3.50

DR. H. J. HARNISH. Narrow green border, bright dark red ribs and center 4.00

DEMON. Light green border, dark carmine ribs and veins, rosy red center 3.25

EAGLE. Green leaf, blotched and spotted light pink 2.50

	Doz.
GRATIOSUM. Light pink center, bordered by a white zone, green edge	3.00
HERO. Dark green ground spotted white. Center of leaf and rib bright scarlet	3.75
IVERNESS. Red center, green border	2.50
JOSEPHINE. Light green leaf, with many rosy and white spots	2.75
LUNA. Pale green, almost white leaf, transparent pale violet center	3.25
NOKOMIS. Bright red center, light green border	2.75
PAULA GERBING. Very dark green leaf, dark red ribs and center	3.00
PRESIDENT. Large bright red	8.00
ROBIN. Fiery red rib center and veins, bright green border	7.00
SEMINOLE. Dark red center, gray zone, dark green border, tall arrow shaped leaves	3.50
TOCATINS. Deep transparent red, mottled with green, chocolate ribs	3.00
WHITE WING. White, red ribs. Tall	2.75
WREN. Red ribs, all red center, spotted white	3.25
Collection of 1 each of 12, lovely, fancy leaved Caladiums, all labeled separately, our selection	3.00
Fancy-leaved mixed varieties40 4.00

CALLA (Zantedeschia)

The so called **RICHARDIA** or Calla Lilies strictly speaking are all "**ZANTEDESCHIA**" after Francisco Zantedeschi, an Italian Botanist. The only true "Calla" being *C. Palustris*, a native species of some of the eastern states.

Arums are also listed sometimes as Callas, one of which is *Arum Pictum* as "Black Calla."

These desirable plants are of easy culture, which can be used with good effect for outdoor planting, in mild climates, or are suitable for potted plants.

For Fall planting. Ready in September

	Each	Doz.
AETHIOPICA (Lily of the Nile). The large white Calla. Tall25	2.50
DEVONIENSIS (Godfrey or Little Gem). Dwarf white variety. Free blooming35	3.50

SPOTTED LEAF CALLAS

For Spring planting. Ready in November

	Each	Doz.
ALBO-MACULATA. Ivory-white, dagger shaped leaves, spotted30	3.00
ELLIOTTIANA. Finest, rich golden yellow flowers, medium height. Large bulbs35	3.50
Medium size bulbs25	2.50
CALLA PALUSTRIS (Wild Calla). For water garden25	2.50

CALOCHORTUS

Lovely native bulbs many of which grow wild on our Western Coast. They require a well drained loamy soil. If soil is heavy, lighten with gritty sand and leafmold. In Eastern states: plant the bulbs in a protected spot and cover with four inches of dried leaves during winter. There are several forms of *Calochortus* which can best be described in separate groups.

	Doz.	100
BUTTERFLY TULIPS		
CITRINUS. Deep rich yellow with black eye. Most excellent75	5.00
EL DORADOS. Selected shades from soft pink to deep claret are wonderfully attractive	1.00	6.50
OCULATUS. Varied shades of white and cream, tinted purple. Flowers very large	1.00	7.50
PURPURASCENS. Superb flowers; lilac to purple, darker on outside petals75	5.00
ROSEUS. Beautiful strain with large flowers of creamy white suffused with lilac. A rose colored blotch on each petal	1.00	7.50
VESTA. White, flushed with lilac; throat red and purple on black petals	1.50	10.00

STAR TULIPS (Cat's Ears)

Dainty slender-stemmed flowers, fine for rockwork and woodlands. When the flowers are open they show a lining of long hairs which suggest cat's ears.

	Doz.	100
LILACINUS. Low growing flowers of clear lilac. Not hairy inside	1.00	6.00
LOBBEL. Cream, with bright yellow center	1.25	7.50
MAWEANUS. Soft lavender, low growing	1.25	7.50
MONOPHYLLUS. Bright yellow	1.25	7.50
Mixed Varieties75	5.00

GLOBE TULIPS OR FAIRY LANTERN

These dainty woodland flowers differ from the Mariposa Tulips by their globe shaped blooms from which they get their name, but the same culture is required by them.

	Doz.	100
ALBUS. Lovely white flowers, rather tall and slender, with leaf-wrapped stems. Ideal for shady nooks75	5.00
AMABILIS. Rich yellow75	5.00
PINK PEARL. Wonderful lustrous rose pink. Very rare.	1.50	
CHOICE VARIETIES. Mixed65	4.50

CAMASSIAS

CALIFORNIA WILD FLOWER

There are few bulbous plants that meet climatic or soil conditions better or give a more attractive bloom. They are hardy without protection, and thrive either under ordinary garden conditions or when naturalized in open moist woods or in not too dense a grassy growth. The flower stems are 2 feet high with as many as a hundred star-shaped flowers measuring 1½ inches across and flowering in long succession. September delivery.

	Doz.	100
ESCULENTA. A purple form, rich in color. Grows 2 feet high. Very showy in masses65	4.50
LEICHTLINI. (Sky blue). Grows 3 feet high with as many as one hundred flowers of the finest form, star shaped and about 1½ in. across, flowering in long succession	1.00	6.00
LEICHTLINI ALBA. White form of the above	1.25	8.00
MIXED.75	6.00

CANNAS

For Spring planting. Ready in December

Cannas have always been in demand and now with the wonderful new colorings and the improved size of flowers, they are even more popular. The large, handsome, ornamental foliage and beautiful spikes of bright flowers make the cannas ideal for mass plantings, backgrounds, borders or hedges. They may now be obtained in heights varying from 3 to 6 feet, and in colors of rose, orange, to pure white. Also some foliage is bright green and some a rich bronze.

	Doz.
ALSACE. Pale sulphur, changing to cream white. Green foliage. 4 feet.	2.00
AMERICAN BEAUTY. Oriental carmine or cerise. Green foliage. 5 feet	3.00
APRICOT. Buff-yellow base, overspread with salmon-pink	3.00
BEACON. Moderate sized flowers borne in great heads of rich cardinal red	2.00
CHEERFULNESS. Its beautiful bright fire-red or deep orange flowers appear early and continue without interruption until frost	3.00
EGANDALE. A fine bronze-leaved variety; cherry-red flowers, borne well above the foliage; handsome. 4 ft....	1.75
FIERY CROSS. Very large flower heads of vivid scarlet shading to crimson; foliage lustrous blue-green. 5 ft....	2.50

	Doz.
GAIETY. Reddish orange, mottled with carmine and edged with yellow. The tongue is yellow and densely spotted with carmine	1.75
GLADIOFLORA. Remarkable on account of the unusual shape of its flowers, which look like Gladiolus; color crimson changing to carmine-rose, with an irregular edge of gold. Four feet	1.75
LOUISIANA. Orchid-flowered. Very large trusses of vivid scarlet flowers; free bloomer	1.75
MORNING GLOW. Foliage an olive-green striped and veined with brown. Flowers soft shell pink and orange-red center. Four feet	3.00
ORANGE BEDDER. This is a particularly useful and attractive bedding variety, of a bright orange with just enough scarlet suffusion to intensify the dazzling mass of color	2.00
PANAMA. The color of this splendid Canna is unusual being an attractive rich orange-red yellow. Very large, flowers. Early, free-flowering habit and unique coloring make this Canna most noteworthy. Three feet	1.75
SAN DIEGO. Persian yellow, with crimped petals. Four feet	2.50
THE PRESIDENT. A gorgeous variety producing great trusses of bright red flowers in great profusion	2.50
WINTZER'S COLOSSAL. Largest-flowered Canna. Vivid scarlet in color	2.00
Mixed colors	1.50
1 each of 12 named varieties; full range of colors, but our selection	1.00

CHIONODOXA (Glory of the Snow)

For Fall Delivery

One of the most lovely of our spring flowering bulbs. Some flowers are brilliant sky-blue, with white center, while others are pure white.

	Doz.	100
GIGANTEA. Soft lavender65	4.50
LUCILIAE. Beautiful blue with pure white center50	3.50
LUCILIAE alba. New, pure white flowers of charming beauty. Very rare	4.00	
SARDENSIS. Intense bright blue50	4.00
TMOLUSI. Bright blue and white	2.00	12.00

CHLIDANTHUS Fragens

Each Doz.

Sometimes called "Delicate Lily." The name doubtless refers to the clear rich yellow flowers, which resemble a miniature Amaryllis. Very fragrant. Hardy when well mulched

CHLOROGALUM (Soap Root)

Fall Delivery

	Each	Doz.
Native bulb with curious rosette shaped foliage; tall stalks bearing open panicles of small white flowers25	2.50

CLINTONIA

ANDREWSIANA. A small low-growing herbaceous plant, with broad shining leaves and umbels of rose pink flowers. They require a cool, shady situation in a rich soil in leaf mold35	3.50
BOREALIS. Flower-stalks are about 6 inches high, bearing at the top a few rather large, greenish yellow, lily-like flowers in early spring. Plant in a cool, shady place25	2.50

CLIVIA (Imantophyllum)

(CLIVE LILY)

Each Doz.

Tender bulbous plants with handsome evergreen foliage and large umbels of flowers of bright scarlet with yellow throat. A native of S. Africa and named for a Duchess of Northumberland and member of the Clive family. Make excellent house plants; spring flowering

COLCHICUM

Fall Delivery

Crocus-like flowers of soft Mauve, blooming late in summer, flowers appear before leaves. Will flower without soil or water if put in sunny spot, but should be planted in the open ground soon after the flowers fade. Very odd		
AUTUMNALE. Commonly called Autumn Crocus. Very free bloomer25	2.50
AUTUMNALE ALBUM. Pure white. Quickly establishes itself in strong clumps50	5.00

	Each	Doz.
AUTUMNALE ALBUM PLENO. Beautiful double white	1.75	
AUTUMNALE MAJOR. Large growing variety with massive flowers of rosy purple50	5.00
BORNMULLIERI. Fine cup shaped long-tubed flowers of rosy lilac. One of the finest species. Early flowering75	
SPECIOSUM. Deep rose purple, very large and fine50	5.00
SPECIOSUM ALBUM. White, very large	1.75	

COLOCASIA

	Each	Doz.
ANTIQUORUM ILLUSTRIS (Black Caladium). Subtropical foliage plant. Leaves blotched velvety black75	7.50
MONORRHIZA NIGRA. Leaves velvety green on purple stems75	7.50

CONVALLARIA MAJALIS

LILY OF THE VALLEY

For forcing, the pips are to be preferred, being grown under conditions tending to promote vigorous and early blooming. Twelve to eighteen pips may be planted in a 6-inch pot with all the fibrous roots carefully preserved, and keeping the crowns above the soil. Place them in a temperature of about 80 degrees, cover the crowns with loose moss and keep them constantly moist with tepid water.

Selected crowns for forcing	Doz.	100
Clumps of several crowns or buds best for planting outside65	4.75
		3.50

COOPERERIA

	Each	Doz.
DRUMMONDII Evening Star). Native of Mexico, Pure white flowers, very fragrant, blooming in the evening. Culture similar to Zephyranthes ..	.35	3.50
PEDUNCULATA (Prairie Lily). Similar to Drummondii, but larger and blossoms for a longer period50	5.00

CRINUM — C. E. HOUDYSHEL

CRINUMS

Although Crinums are tropical plants, they do well in this climate when given some protection. It is advised to plant about 12 inches deep and near a wall, or cover with leaves, and may be grown inside in a large pot or tub.

	Each	
AMABILE. Immense, dark green leaves. Stems purplish red; many glossy pink flowers; very fragrant	1.50	
AMERICANUM. Beautiful plant producing umbels of large lily-like white flowers75	
AISATICUM. Large species, forming a magnificent rosette of dark green leaves. Clusters of fragrant white flowers	1.50	
CAMPANULATUM. Vigorous plant with wavy-margin-ed strap-shaped leaves. Spikes of lovely bell-shaped flowers; white with pink stripes	1.25	

	Each
C. E. HOUDYSHEL. Hybrid. The nearest to a red flower. One bulb will often bloom four or five times in one year	2.00
CAPENSE ROSEA. Pink. Hardy.50
CAPENSE ALBA. Same with white flowers50
EMPRESS OF INDIA. Large plant, produces freely all summer. Umbels of drooping flowers, deep rose-color striped flesh pink	2.00
ERUBESCENS. Flowers reddish outside, white inside. Native of Tropical America. Lovely plant for the conservatory or greenhouse50
FIMBRIATUM. Pure white with lavender-pink stripes through center of petals50
GIGANTEUM. Considered one of the most beautiful species. Large pure white flowers with vanilla-like fragrance. Handsome, rich green foliage	1.50
J. C. HARVEY. Hybrid. Flowers rosy-pink; large with drooping habit. Very fragrant. Blooms several times during a year	1.50
KIRKI. Large white flowers with a reddish-purple stripe down the center of each petal on the outside, which shows through and gives the flower a pink tinge on the inside. The very beautiful wavy-edged leaves form a perfect rosette. The entire plant has a very rich tropical appearance50
KUNTHIANUM. Native of New Granada. Flowers dull white, tinged rose-red, produced abundantly50
MOOREI. From Africa. Does best in partial shade. The whole plant is of a very beautiful form, flowers clear pink50
MRS. BOSANQUET. Hybrid. Large cup shaped blossoms of deep, glowing rose. One of the finest Crinums in the lot	3.00
POWELLI ROSEA. A very popular and beautiful hybrid with pink flowers resembling a lily; hardy ..	.50
POWELLI ALBA. Same with white flowers50
PEDUNCULATUM. White, tinged green. The bulb grows nearly on top of the ground on large root-stock	2.00
SCABRUM. Leaves light green with wavy edges. Flowers dull white changed to rose	1.25
VIRGINICUM. Large flower of white and soft rosy pink	1.00
Collection of 6 choice Crinums, all different and labelled separately, our selection, \$2.75.	
Special collection of 12 choice Crinums, all different and labelled separately, our selection, \$7.50.	

CROCUS.

For Fall Delivery

Very early flowering Spring bulbs for planting in lawns, borders or terraces. Bulbs should be planted in October. They can also be grown in bowls with prepared fiber or pebbles.

CAESAR. Purple, fine large flower.

PRINCE ALBERT. Deep blue.

QUEEN VICTORIA.

ASPASIA. White ground with pale rosy lilac stripes.

MADAME MINA. Light lilac striped.

PRINCESS LOUISE. Deep purple with light stripes.

SIR WALTER SCOTT. White, striped pale lilac. Doz. 100

Mixture40 2.50

WILD CROCUSES

SPECIES FOR ROCK GARDEN OR BORDER

Besides the Dutch Crocuses there are certain species that blossom very much earlier in the year, often before the snow has gone. The flowers of these wild sorts are smaller than those of the Dutch kinds, but they are as vigorous and free as the others. Given a sunny position in the rock garden, or a sheltered position in grass where the sun may encourage them freely, they will surprise you by their hardy appearance in the face of cold and storms.

WILD AUTUMN-FLOWERING SPECIES

	Doz.	100
ASTURICUS. Deep violet	3.00	22.50
IRIDIFLORUS. Purple violet	3.00	22.50
LONGIFLORUS. Bluish lilac	3.00	22.50
OHROLECUS. White, yellow base	2.00	15.00
PULCHELLUS. Lavender blue, white anthers	4.00	32.00
SALZMANNI. Lilac	1.50	8.00
SPECIOSUS AITCHISONII. Bright blue, very large flower	3.50	27.50
SPECIOSUS ALBUS. Pure white	5.00	37.50
ZONATUS. Rose-lilac, yellow center and orange zone; ethereal in its lovely coloring	1.00	7.50

	Doz.	100
WILD SPRING-FLOWERING SPECIES		
AUREUS. Golden yellow	2.75	20.00
BIFLORUS (Scotch Crocus). White with lilac stripes	1.25	8.00
IMPERATI. Fine shade of mauve; exterior of the three outside segments a rich fawn	1.25	8.00
SIEBERI. A gem; lavender flowers with bright orange stigmata	1.25	8.00
SUSIANUS. Most attractive, deep, rich yellow with dark rich brown flames on exterior of segments	1.25	8.00
TOMMASINIANUS. Pale lavender-mauve	1.00	8.00
VERSICOLOR (Cloth of Silver). White, penciled purple	1.00	8.00

CYCLAMEN

One of the most beautiful flowers that blossom at Christmas. Are noted for their bright colored flowers and variegated foliage. Plant from Sept. to March. Plant one bulb in a 5 or 6-inch pot so that one-third of the bulb is above the soil. Our Cyclamen bulbs are of the very best strain, and have a wide variety of colors. Each Doz.

PERLE OF ZEHLENDORF. Dark salmon

ROSE OF ZEHLENDORF. Light salmon

ROSE OF MARIENTHAL. Soft pink

BLOOD RED.

BRIGHT RED.

WHITE WITH CARMINE EYE.

Named Varieties35 3.50

Mixed Varieties 2.50

CYRTANTHUS (Ifafa Lily)

SANGUINEA. Blood red flowers, resembling a dwarf Amaryllis. Blooms in early fall; the flowers appearing before the foliage. A native of South Africa. Supply limited75 7.50

DAHLIAS

DECORATIVE DAHLIAS

Double flowers full to the center, usually with broad, flat, loosely formed petals. The name after the variety refers to the originator, if known. Each

AL KORAN (Davies). Golden yellow. Big, bold flower with long, wavy petals, which stands very erect on long rigid stems. The plant is a tall vigorous grower75

AMULET (Boston). Reddish brown suffused with gold. The most pronounced feature of this dahlia is its excellent keeping qualities when cut. It is different in color from any of the other autumn-tinted dahlias with which it combines so well. The numerous large flowers are held on long straight stems 3.00

AMUN RA (Seal). Golden copper deepening to a rich reddish bronze. A sensational dahlia of great size that is unsurpassed for exhibiting and very useful for cutting75

AURORA B (McWhirter). Royal purple and white. The large flower is very double and is a combination of the decorative and collarette types. The large petals are purple and the small ones between them white 1.00

	Each
BEAU BRUMMEL (Boston). Purple. A low growing variety that is a heavy producer of good blooms. This variety in general reminds one of a very exaggerated Purple Manitou	1.50
BLACK JACK (Hodgens). Deep maroon, almost black. One of the darkest of all dahlias and a robust grower. The flowers are large and stems good. Decidedly attractive	1.00
CHAMPAGNE (Boston). Dull, golden champagne. An entrancing color and an irresistible dahlia in every way. Large flower, extra long stem, lasts a long time on the bush as well as when cut75
CHARLEMAGNE (Ballay). Clear canary yellow. A very large flower with broad, heavy, loose petals. Plant is low growing and free blooming. Very good for garden decoration	3.50
DONNA CALIFORNIA (Ballay). Deep rose pink suffused lavender. Largest Dahlia in this color	10.00
EARL WILLIAMS (Doolittle). Bright scarlet regularly tipped white. A most striking color combination and a first class dahlia in every way. Good fancy dahlias are few and this one is especially meritorious	1.00
ELLINOR VANDEVEER (Seal). Glowing rose pink. An exceptionally beautiful dahlia of good size and with all the other qualities necessary to place it in the highest class75
FAITH GARIBALDI (Boston). Clear rose pink. A gold medal dahlia that has won many prizes. In our garden it has been a model of perfection. Flowers were large and well formed, the stems long and stout, the bushes loaded with blooms	2.00
GOLDEN JUBILEE (McWhirter). Golden orange. Free blooming, upright growing variety with good stems. If well disbudded it will be found very useful for all purposes	2.00
MRS. JESSIE K. PRESCOTT (Boston). Deep orange at the center gradually shading lighter on the rows of outer petals. A very brilliant and pleasing dahlia that would be admired anywhere. The rich coloring is its outstanding characteristic	1.00
NOBILIS (Doolittle). Combination of white and red. It differs from Earl Williams in that the white predominates	1.00
OLIVE REED (Seal). Clear bright yellow. A very large heavy decorative with a very full center which is closed at all times. It is not unusual to have 10 or 12 magnificent blooms at one time on a bush and the stems are always straight and strong	4.00
SALBACH'S WHITE (Salbach). Large ivory white decorative Dahlia. Keeps well and does not burn. Awarded Gold Medal by the Dahlia Society of California in 1924. Also first prize for best white Dahlia by the Dahlia Society of Southern California	2.00
SHUDOW'S LAVENDER (Boston). Silvery lavender shading to white. This exceptional dahlia with every good point has for a number of years been the outstanding dahlia of lavender coloring	2.00
SUSAN G. TEVIS (Boston). Deep lilac. This is an unusual shade and some of the flowers are lightly penciled with white. The foliage is dark and is in fine contrast to the large graceful blooms	1.50
TOMMY ATKINS (Boston). Brightest scarlet. A new and very brilliant shade. The refined but irregular formation of the large flower is very striking. Stem is the best possible and the blooms are freely produced	1.00
TRYPHINNIE (Seal). Shell pink with darker reverse. Large flower on strong stem. Good keeper	1.00
WALTER E. MAGEE (Salbach). Large decorative flower of exquisite glowing color of bitter-sweet orange shading to buff suffused with carmine	3.00
WIZARD OF OZ (Doolittle). Bright salmon pink. Mammoth blooms of exquisite formation, robust grower. This dahlia has a great host of admirers	2.00

CACTUS DAHLIAS

Long, narrow, pointed petals, full to the center, resembling a chrysanthemum. The American cactus is coarser than the English type, but not as heavy or large as the Hybrid cactus. Each

ALICE WHITTIER (Reed). Pale yellow. Was judged the most perfect bloom in the San Francisco Show in 1926. A large, full flower, very ornamental in the garden as the blossoms are numerous and hold out well on the rigid stems	2.50
BALLET GIRL (Boston). Solid orange, or orange edged white, sometimes on the same bush. English type of good coloring, formation and stem	1.50
CORONA . Clear yellow. English cactus with numerous florets, which though only slightly incurved form a very pretty flower	1.00

	Each
CONQUISTADOR (Ballay); Hyb. Cactus. Awarded gold medal for the best Dahlia at the San Leandro Flower Show. The flowers are a beautiful soft creamy yellow shading to a glowing pink at the base of the petals	5.00
DAHLIAMUM (Ballay); Hyb. Cactus. Clear bright yellow. This Dahlia resembles a Chrysanthemum very much, hence its name. Excellent cut flower	3.50
DOROTHY DIX (Boston). Silvery pink. Huge hybrid with distinctly incurved, evenly rolled petal formation. Plants grow tall and sturdily and produce excellent flowers early and late. Stems are long and stiff. Excellent 1928 introduction	10.00
EL GRANADA (Boston). True bright orange with a yellow reverse. Hybrid cactus with all good qualities, most lovely color, largest size, stands the warmest sunshine unusually well	2.00
GALATEA (Boston). Soft yellow with a very slight pink suffusion. Hybrid. The numerous blooms are composed of long wavy petals and are carried on long stiff stems	1.00
JERSEY'S RADIANT (Waite). Bright orange. Long stemmed, free flowering variety of best formation. Favorite cut flower, hybrid	1.50
REGENT (Boston). Lavender pink. Large flower with numerous long incurved petals completely covering the center. American type	1.00
ROLLO BOY (Pelicano). Light yellow with pink suffusion. Very large hybrid that blooms freely till frost. The formation, the stem, the general habit of growth are beyond criticism	1.00
SOLE MIO (Lohrmann). Bright yellow. Extra large hybrid that was a gold medal prize winner in 1925. Fine habits, beautiful for garden or exhibition	2.00
ZANTE (Boston). Pure gold with a slight pink suffusion. A consistent bloomer which keeps its size and center to the end of the season. Stiff stems. Hybrid	2.50

PEONY DAHLIAS

Semi-double flowers showing a bright yellow center, often having small twisted petals circling about the center.

	Each
CITY OF PORTLAND (Gill). Clear rich yellow. True peony type formation. Exceptional bloomer. Very conspicuous	1.00
GORGEOUS (Boston). Golden yellow shading to scarlet. Large size, best of stems, freedom in blooming, good keeping qualities when cut	1.50
THE ORIOLE (Burns). Reddish orange and yellow. Occasionally a flower is tipped with white. Big bright blossoms with good stems and especially free blooming	1.00

POM PON DAHLIAS

Very small compact flowers. The smaller the better, so do not require disbudding.

	Each
ACE OF DIAMONDS . Bright red50
AIMEE . Bronze50
ANITA . Bronzy old rose50
ANNIE DONCASTER . Soft yellow and mauve50
BANTAM . Brownish red75
DANDY . Bright orange75
DEE DEE . Pure lavender50
DONALD . Deep red50
EDITH . Yellow heavily tipped brownish red	1.00
ELIZABETH . Orange tipped red50

ERYTHRINA (Coral Plant)

CRISTA GALLI. Interesting flowering plant for the garden, growing from 4 to 6 feet high and producing long spikes of large crimson, pea-shaped flowers from late September until frost. The roots may be stored in the cellar the same as Dahlias. Strong roots. Each.....\$1.50

EUCHARIS (Amazon Lily)

AMAZONICA. Recommended exclusively for indoors and requires to be well established for good production of flowers. Bears two or three white Narcissus-like flowers. Very scarce1.00 10.00

EUCOMIS (Pineapple Lily)

PUNCTATA. Half-hardy cape bulb producing rosettes of long leaves and a strong scape or stock, bearing a raceme of whitish flowers in the Spring, which are crowned with a crest of leafy bracts similar in shape to the topknot on a pineapple. It is from this leafy crown that the name is suggested. In warm climates let the bulbs remain where planted in the open. Treat as a houseplant in the East. Each1.50

ERYTHRONIUM

(DOG'S-TOOTH VIOLET) HARDY

For Fall Delivery

These are charming woodland plants, producing in early April, small, lily-like flowers of which the colors run in delicate tints of white, pink, cream, bright yellow and rose. They thrive in shaded corners or crevices of rock work. Their beauty is enhanced by their richly mottled leaves. They like a light, rather moist, but well-drained soil. Plant the corms about three inches deep.

The following varieties are the best and all are hardy. Doz. 100

CALIFORNICUM. Cream colored, often with 4 or 5 flowers on the stem. Leaves richly mottled. A large colony is a beautiful sight60	4.50
CITRINUM. A native of Southwestern Oregon; is rather stouter in habit than the last; flowers creamy at the outside, citron center50	3.75

	Doz.	100
GRANDIFLORUM ROBUSTUM. A most distinct species, usually found in the mountains of the West. The leaves are not mottled, but a plain green. The flower are of the brightest buttercup brightest buttercup yellow60	4.50
HENDERSONI. Like Californicum, but the flowers are a lovely light purple ,with the centers a deep maroon, almost black. Most striking75	6.00
HARTWEGI. Perhaps the most lovely of all Erythroniums. With the stout habit of this group, it has exquisite rose pink flowers. From the coastal region of Oregon60	4.50
The above named varieties are the best and all are all hardy.		
MIXED.50	3.75

FREESIAS

For Fall Delivery

Freesias have well shaped tubular flowers of many beautiful shades, all of which are now supposedly originated from one South African species, *F. refracta*. Their popularity is increasing each year as the new hybrids in beautiful shades are becoming known. Their culture is the simplest Plant in rows or masses in any good garden soil and where they have plenty of sun, or in cold climates may be grown in the greenhouse, as they force easily. Bloom profusely in early Spring. Should be planted in the early fall.

	Doz.	100
AURORA. Large flowering yellow suffused with buff shading on lower petals75	6.00
BUTTERCUP. Large yellow with deep throat60	4.50
CALIFORNIA. Large bright golden yellow75	6.00
CARMENCITA. Large orange salmon hue with orange75	6.00
CARRIE BUDAU. Lavender pink, improved General Pershing75	6.00
GENERAL PERSHING. Yellow and pink75	6.00
ILENA. Rosy lavender with white throat, deep orange blotch on lower petals75	6.00
OLIVETTE. Bright carmine red with light yellow throat, lower petals having deep yellow throat with crimson veins75	6.00
PURITY. Finest and purest white variety, large flower and of strong growth30	2.00
SPLENDENS. Large flower, lavender violet, strong grower60	4.50
YELLOW PRINCE. Fine long stem orange75	6.00
Rainbow Mixture. All colors40	3.00

FRITILLARIA (Mission Bells)

For Fall Delivery

IMPERIALIS (Crown Imperial). One of the most characteristic plants of old fashioned gardens. It is the most robust of all the species. The flowers are borne in umbels on stout stems 3 to 4 feet high. Mixed varieties

MELEAGRIS (Guinea Hen Flower and Checkered Lily). These produce in early April, dwarf pendent, bell-shaped flowers in various shades of color, curiously checkered, striped and splashed. They are very effective in colonies, requiring a somewhat dry situation. Invaluable for mass planting in the meadows, and for naturalizing.

	Doz.	100
Alba (White)	1.25	10.00
Named varieties, our selection	2.50	20.00
Mixed varieties75	5.50

NATIVE VARIETIES

Fritillarias are bulbous plants of the woodlands. The stems are leafy and most graceful, with many pendent, bell-like flowers. One species found in Southern California is called "Mission Bells," while in other places local species are called Brown or Chocolate Lilies.

	Each	Doz.
LANCEOLATA. Green and brown mottled. Very pretty15	1.25

MIXED		1.00

GALANTHUS (Snowdrops)

For Fall Delivery

Dainty little pendulous flower which bloom early in the spring. The bell-shaped flower is white tipped with green. They prefer a cool, moist situation.

	Doz.	100
Nivalis Simplex, single60	4.00
Nivalis Flore Pleno, double75	5.50
Elwesii, extra large species65	4.75

GALTONIA (Cape Hyacinth)

	Each	Doz.
CANDICANS. Native Cape bulb having large handsome white flowers, growing 3 to 5 feet in height gracefully surmounted with from 20 to 30 bell-shaped umbels25	2.50

GLADIOLUS (Sword Lily)

Wonderful progress has been made in recent years in the improvement of the named hybrids, in size, color and beauty of the flowers. Our list comprises only the best both in named varieties and in mixture.

The culture of the Gladiolus is of the simplest. The bulbs may be planted from December to May. For early planting, full sunlight is desirable. For the later planting, a partially shaded location should be chosen.

The bulbs should be set 4 inches deep, 6 inches apart. Water frequently and cultivate after each watering. This will insure larger and better flowers. After the bulb has blossomed, cut the flower stem, leaving four leaves. Allow the bulb to ripen in the ground and when the leaves have turned brown, dig the bulb and store in a cool dry place.

The name after each variety refers to the originator if known.

RECENT INTRODUCTIONS OF GLADIOLUS

	Each	Doz.	100
A. B. KUNDERD (K-1918). Tall, large, intensely ruffled flower, delicate deep cream, with pink and yellow markings. Large20	2.00	12.00
A. W. HUNT (Christy). A beautiful glowing carmine red, extra large and very attractive. Gold stripe through center of petals35	3.50	
BEACON FAME (Glory of War) Self colored vermilion scarlet. Large50	5.00	
BENGAL TIGER (Pratt). Large blossoms of a peculiar shade of smoky red, striped and lined with smoky blue-grey. Barbarically gorgeous. Large15	1.50	10.00
CAPTAIN BOYNTON (Boynton). Large, light lavender, with darker spots on lower petals—very fine. Large25	2.50	15.00
CHATEAU THIERRY. Bright cerise with carmine spots on lower petals. Enormous wide-open flower 4 to 6 inches diameter. Fine spike, excellent grower. A sensation wherever exhibited. Large20	2.00	12.00
COWEES SCARLET WONDER (Groffs). Large, glowing, brilliant, velvety, pure scarlet flowers. A very fine red. Large25	2.50	15.00
DAVID STARR JORDAN (Diener). Immense flowers of intense flame color with lighter speckled throat. Large25	2.50	15.00
DIENERS AMERICAN BEAUTY. American Beauty rose color, creamy yellow throat—many open at one time—each spike a bouquet in itself. Large20	2.00	12.00
DUCHESS OF YORK (Dames). Dark blue, Called an improved Baron Hulot. Large35	3.50	20.00
FAY LANPHIER (Williams). Warm watermelon pink suffused coral, often having a crystalline texture on the petals as if frosted. Large20	2.00	12.00
FERN KYLE (K-1921). Ruffled, very large, creamy white with slight amaranth purple in throat. Large35	3.50	20.00
GIANT NYMPH (Coleman). Immense rose pink flowers with creamy yellow throats borne on tall erect stems. A wonderful glad. Large35	3.50	20.00
HELEN TODD (Diener). Light rose pink, deeply edged around each petal, throat deep scarlet. Large15	1.50	7.00

	Each	Doz.	100
HENRY FORD (Diener). Very dark, rhodamine purple shading into deeper tones near the center. An improved Anna Eberius. Large25	2.50	15.00
JACOBA VAN BEYEREN (Hol). Large flowers of pure violet on tall erect stems; well arranged and many open at one time. Large25	2.50	15.00
LOS ANGELES (Houdyshel). Immense spikes bearing huge blossoms of shrimp pink with throat of orange tinted carmine. Large25	2.50	15.00
MRS. F. C. PETERS (Fischer). Fine rosy lilac blossoms with soft crimson blotch; slightly ruffled and many opened at one time. Tall, vigorous and fine. Large20	2.00	12.00
MRS. HARDING . Mauve colored flower with feather markings. Large25	2.50	15.00
MR. MARK (Velthuys 1916). A pleasing shade of light blue with dark blotch..... Large20	2.00	12.00
MRS. LEON DOUGLAS (Diener). Enormous rose colored blossoms striped with scarlet. Extra long spikes. Large25	2.50	15.00
PARAMOUNT (K1918). A wonderful blending of pink and cream. Similar to Mrs. Dr. Norton. Large50	5.00	30.00
PROF. A. C. BEAL (Kirchoff). Deep maroon a flower of good merit. Large50	5.00	30.00
PURPLE GLORY (K1926) (R). Deepest velvety maroon-red with almost black blotches. A perfect giant among gladiolus. Recommended. Large25	2.50	15.00
ROBERT KUNDERD (K-1919). Medium tall, very brilliant orange vermillion. Very showy self color. Large35	3.50	20.00
SIR ROGER CASEMENT (Diener). Dark maroon—heavily ruffled. Large35	3.50	20.00
QUEEN OF THE BLUES . Light pinkish lavender. Small burgundy blotch on yellow ground on lower petals. Tall spikes well arranged. Large25	2.50	15.00
THOS. T. KENT (Diener). Very attractive flower, combination of strawberry and shell pink. Large25	2.50	15.00
WHITE GLORY (K 1915). (R). Pure white with an iris blue throat. Intensely ruffled Large20	2.00	12.00
MIXED GLADIOLUS . All colors50	3.00	
MIXED RUFFLED GLADIOLUS75	5.00	

GLADIOLUS COLVILLI AND NANUS TYPES MINIATURE OR BABY GLADIOLUS

The culture of these Miniature Gladiolus is very easy. Plant from October to December and you will be rewarded with wonderful blooms in May and June. Plant the bulbs 6 inches apart and 3 to 4 inches deep. Mass planting is very effective. The flowers are borne on long slender stems and are in great demand as cut flowers. Requires protection.

	Doz.	100

---	-----	------

GLADIOLUS SPECIES FOR SPRING PLANTING

The greater part of the improved garden forms of Gladiolus are derived indirectly from South African species of which there are over a hundred now known, which are unique both in shape and color.

	Each	
DRACOCEPHALUS (The Dragon Head). Hooded green flowers, striped yellow50	
PRIMULINUS (Maid-of-the-Mist). A little wild yellow "Glad" growing about the foot of Victoria Fall, in Africa35	
PSITTACINUS (The Parrot Glad). Another hooded species with red, green and yellow flowers. Rare and seldom seen in this country	2.50	
QUARTINIANUS. Tall species with large flowers of red and yellow that bloom late in summer50	
SAUNDERSI. Large bright scarlet blossoms with white blotch in throat. Not easy to grow, but well worth the effort if successful	10.00	

Gladiolus Species for Fall Planting

	Each	
ANGUSTUS. White marked purple; 2 to 3 feet	7.50	
CALLISTUS. Pale pink with carmine markings	4.00	
CARDINALIS ELEGANS, The "Superb Gladiolus." Long sprays of Carmine red and salmon colored flowers with white throat. This species is from South Africa, therefore should be grown in the window garden, in cold climates, or started in flower pots under cold frames, until danger of frost is past. This is one of the most beautiful of all the wild Glads and is very rare in this country. They bloom from May to the end of June and grow 3 to 4 feet high. Each	\$1.50	
CUSPIDATUS. Creamy-pink with carmine throat markings	3.00	
LEICHLINI. Flowers orange and red. Flowers very beautiful and graceful	5.00	
TRISTIS CONCOLOR (The Fragrant Glad). Height 3 to 4 feet. A most interesting species from the Cape. The stems are tall and slender and should be well stalked. It may be planted out of doors in mild climates, but requires the same culture as Freesias in the Northern or Eastern States. The flowers which are rather large considering the slender stems, are cream with brown spots. A sweet fragrance, similar to that of a Hyacinth, but not as heavy, is noted after sunset. Each	\$1.50	

Mediterranean Species

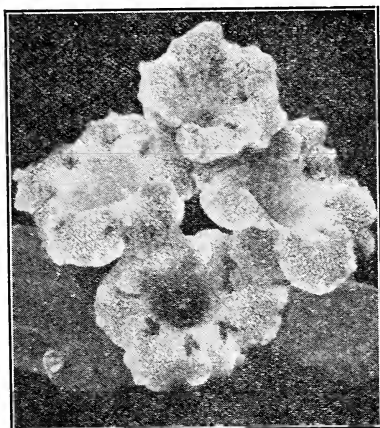

BIZANTINUS (Turkish Corn Flag). Native of Asia Minor, about 2-3 feet high and is hardy except where winters are severe, in which case they should be planted in a protected spot and covered with a heavy mulch. The color is purple or wine color. Blooms in May. Each.....\$1.25

COMMUNIS. This dainty little wild Glad comes from Central Europe and is perfectly hardy in most of the Eastern states. The spike is 1½ to 2 feet tall and the blossoms are rich mauve or deep lavender. Blooms here in May. Supply limited. Each\$1.00

GLORIOSA (Glory Lily)

Each

ROEHRSIANA. A gorgeous Lily-like plant, climbing from 5 to 8 feet high, with orange-scarlet flowers. Should be grown in a greenhouse or conservatory. Early Spring or Fall delivery 2.00

GLOXINIA

One of our handsomest summer blooming tuberous-rooted plants. It makes a very fine pot plant, requiring about the same cultural directions as Begonia. One bulb to a 4-inch pot. The colors range through pink, scarlet, violet and white bordered.

	Each	Doz.
BRILLIANT . Carmine-scarlet50	5.00
BRUNHILDE . Giant flowered, pure white40	4.00
CORONA . Indigo; magnificent45	4.50
DUKE OF YORK . Scarlet, edged white50	5.00
EMPEROR FREDERICK . Vivid scarlet with white band50	5.00
EMPEROR WILLIAM . Deep violet with white margin45	4.50
FIRE KING . Robust dark scarlet40	4.00
HER MAJESTY . Lovely pure white35	3.50
CYCLOPE . Brilliant carmine with broad white margin. Spotted throat35	3.50
MAUVE PRINCESS . White with mauve margin40	4.00
WATERLOO . Deep purple, curled carmine border50	5.00
Mixed Varieties, large bulbs		3.00
Spotted and Netted Hybrids35	3.50

HEDYCHIUM

(GINGER LILY)

	Each	Doz.
CORONARIUM . Canna-like growth; waxy white flowers with a rich fragrance; fall blooming50	
GARDNERIANUM . Taller, with deeper green foliage and yellow flowers	1.50	

HELICONIA BIHIA

(WILD PLANTAIN)

	Each
Purplish stems, yellow flower spikes. Grown only in frostless regions	1.00

HELLEBORUS (Christmas Rose)

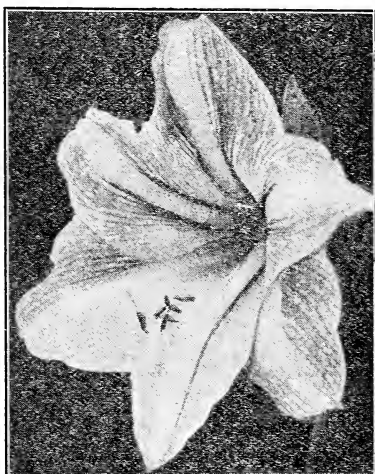

Large pure white flowers from early fall until January. Bloom freely when well established. They are related to the peony family. Require a semi-shaded location and rich loamy soil

	Each	Doz.
ORIENTALIS (Lenten Rose). Mixed hybrids	1.50	15.00
NIGER (Christmas Rose)	1.00	10.00

HEMEROCALLIS (Day Lily)

Hemerocallis have long been favorites in our gardens and are always included in any list of the most popular hardy plants. All of the varieties of Hemerocallis are desirable and beautiful. The tall, graceful, grass-like foliage is very handsome and sets off the charming lily-like flowers very effectively. They look particularly well naturalized along streams or on moist banks, and will thrive most luxuriantly in shade.

	Each	Doz.
AURANTIACA. Bright orange. Fragrant, 2 to 3 feet. Late flowering35	3.50
BARONI. Fine soft yellow flowers40	4.00
CITRIN. Tall species with fine flowers from pale lemon to sulphur yellow30	3.00
DR. REGAL. Rich orange 18 inches high. Early ..	.25	2.50
FLAVA (Lemon Lily). Sweet scented, clear, full yellow; 2 1-2 feet. Flowers in June25	2.50
FLORHAM. A strong grower, 3 to 3 1-2 feet high, large trumpet-shaped flowers; rich, golden yellow, with Indian yellow markings. June and July ..	.35	3.50
FULVA (Brown Day Lily). Coppery orange, shaded crimson, 3 feet. July25	2.50
KWANSO. Large double-flowered variety with rich golden bronze flowers25	2.50
GOLD DUST. Bright yellow and back of petals bronze gold. 2 to 3 feet, May to June25	2.50
Collection of six strong roots, each labelled, our selection, for		\$1.50

HIPPEASTRUM

	Each	Doz.
EQUESTRE (Bardados Lily). Free flowering flame red variety. Excellent for pot plants or outside planting in the south35	3.50
EQUESTRE, fl.-pl. A double flowering form of above	1.00	10.00
JOHNSONI. Striped white on red ground; extra fine25	2.50
PUNICEUM. A species of Amaryllis with lily-shaped flower of brilliant orange-red with greenish ivory throat. Very good for pot culture, requiring the same care as Amaryllis35	3.50
VITTATA HYBRIDS (Amaryllis Hybrids). Finest of all cultivated Amaryllis. Exceeding all former Hybrids in size, form and diversity of colors. These are easy of culture. May be planted in the open in warm sections, but potted in colder climates.		
Mammoth bulbs	1.25	12.00
Large bulbs75	8.00
Medium bulbs50	5.00

HOMERIA

Fall Delivery

ELEGANS. Half-hardy South African bulbs, bearing yellow or orange flowers with large blotch. This summer flowering bulb is of the Sparaxis family, requiring the same culture, but is more closely related to the Herbertia, Moraea and Tigridia. Should be grown in a sunny, sheltered location and be well mulched35	3.50
---	-----	------

HOOKERA

Fall Planting

Doz.

CORONARIA (Harvest Brodiaea). Stems 8 to 12 inches.
Two large rich violet trumpet flowers 2.50

HOSTA

FUNKIA (Plantain Lily)

The Plantain Lilies are among the easiest plants to manage; their broad massive foliage makes them attractive subjects for the border even when not in flower. They succeed equally well in sun or shade. Each Doz.

CAERULEA. Lovely blue flowers 1 1-4 to 3 ft. high40 4.00
FORTUNEI. Pale lilac; blue green foliage35 3.50
LANCEOLATA. Valuable by reason of its late flowering, lilac flowers in September; 2 feet35 3.50
THOMAS HOGG. Well rounded green foliage with border of white. Deep lilac colored flowers40 4.00
UNDULATA MEDIA PICTA. Green and white variegated foliage; purple flowers. Makes a fine edging; July; 2 feet35 3.50
VARIEGATA. Fine blue flowers. Ovate leaves with margins deep green and creamy white center. One of the finest40 4.00

HYMENOCALLIS (Spider Lily)

REQUIRES PROTECTION

Each Doz.

CARIBAEA PANCRATUM. Beautiful white, flowers, which resemble a miniature Ismene. Foliage gray-green20 2.00
GALVESTONENSIS. White flowers, bright green foliage, which dies down in the late fall. The bulbs should be dug in the fall and planted in the spring25 2.50

ISMENE (Peruvian Daffodil)

CALATHINA. A grand summer flowering bulb, producing with great freedom large amaryllislike pure white, fragrant blossoms25 2.50
SULPHUR BEAUTY. Lovely hybrid form of the above. Pale yellow flowers. Very rare 5.00

HYACINTH

Fall Delivery

Hyacinths are very fragrant and come in a great variety of colors. They make a magnificent display when grown outside in a bed. They are also very satisfactory when grown in pots or in glasses of water. For outdoor culture set the bulbs so that the tops will be 3 to 4 inches below the surface and 6 to 10 inches apart. For pot culture use a 6 inch pot for a bulb or a large pot for 2 or 3 bulbs, and leave the tops of the bulbs just above the surface. After potting give a good watering and set away in a cool place and cover with coal ashes or sand until thoroughly rooted, which takes from 8 to 10 weeks. During this time do not allow them to become dry. They may then be set in a cool, light place until the flower spikes have developed, when they may be placed wherever they are wanted.

EXHIBITION SIZE HYACINTHS

Doz. 100

APPLEBLOSSOM. Soft pink, light center.
CARDINAL WISEMAN. Bright rose, late.
GERTRUDE. Rosy pink, large compact truss.
L'INNOCENCE. Pure white, large bells, fine spike.
JOHAN. French grey.
La PEYROUSE. Clear light blue.
KING OF THE BLUES. Dark blue, compact truss.
BISMARCK. Sky blue, very large spike.
CITY OF HAARLEM. Rich deep yellow, tall, erect spike.
KING OF THE YELLOWS. Bright yellow, compact truss.
DISTINCTION. Very dark maroon.
LORD BALFOUR. Lilac, tinged violet.
MAUVE QUEEN. Mauve.
First Size of Above Varieties 3.00 22.50
Second Size 2.50 20.00

BEDDING HYACINTHS

These are good strong bulbs, imported direct from Holland, and will produce fine flowers. Exceptionally fine for bedding in mass effect.

Red and Dark Red, Blush White, Pink, Pure White, Dark Blue and purple, Light Blue, Yellow, All Colors Mixed.

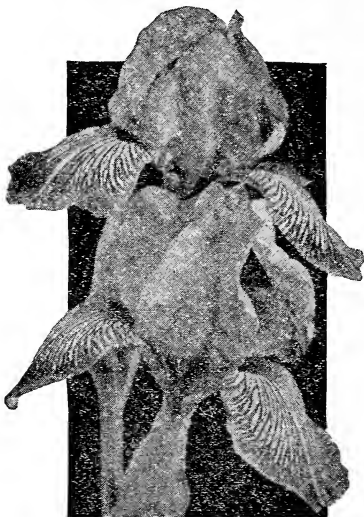

Doz. 100
Price of above colors 1.50 12.00

DOUBLE HYACINTHS

Each Doz.

BOUQUET ROYAL. Rose dark center35 3.50
PRINCE ALICE. Pure white35 3.50
GENERAL KOHLER. Bright blue35 3.50

MINIATURE HYACINTHS		Doz. 100
White, Pink, Blue or Mixed	1.00	8.00
ROMAN HYACINTHS		
Pure white, fine for pot culture	2.50	20.00
FRENCH ROMAN HYACINTHS		
French Roman Hyacinths are among the earliest bulbs to be had in flower.		
	Doz. 100	
White, Pink, Blue or Mixed	2.00	15.00

IRIS GERMANIA (TALL BEARDED IRIS)

This beautiful class of Iris is so well known that no lengthy description is needed. It is sufficient to say that for the little effort required for growing them, no other flower gives greater joy or adds beauty to the garden, more than these magnificent rainbow tinted Iris.

The following culture suggestions may prove helpful:

Plant from August to March, the earlier the better, in a sunny or partially shaded location. Any good, rich soil will do well for Iris as long as it has good drainage. Give a mulch of old manure, but do not mix this or other fertilizer with the soil. Plant roots 15 to 20 inches apart and 1 inch deep. To avoid decay, do not plant in damp locations or give too much water at first. Divide and replant every 3 or 4 years.

Abbreviations: "S" standards or upright petals; "F" falls or lower petals.

The name after each variety refers to the originator, if known.

Recent Introductions		Each
ALVARADO (Mohr) 1926. A fine seedling of Conquistador and Lent A. Williamson. Tall and vigorous, with blooms of deep rich purple. 40 in.		\$1.00
APHRODITE (Dykes) 1922. One of the most beautiful pink irises. Standards and falls are of the same pure bright violet-pink with no markings. The flowers are of good size, perfect form and sweetly scented, freely produced on 40 in. stems		\$3.50
ARGENTINA (Mohr) 1924. A large, tall white Caterina seedling with gold veined haft. A fine seed parent....		\$1.00
AVALON (Sturtevant). An exceptionally large satiny pinkish lavender of fine shape and substance. Very vigorous, well branched and tall. Blooms over a long period. 40 in.		\$1.00; 3 for \$2.50
BALLERINE (Vilmorin) 1920. Enormous blooms with broad, light blue violet standards, waved at margins, falls broad and deeper in color. Perfect, excellent substance. Blooms well placed on tall widely branched stalk		75c
BELISAIRE (Cayeaux) 1924. S. golden bronzy tan, large and rounded; F. purplish old rose, hafts yellow to cream, lined purple bronze. 38 in.		\$3.50
CHASSEUR (Vilmorin) 1923. Yellow, with broad standards and well rounded falls. 36 in. Late.		\$2.50
CONQUISTADOR (Mohr) 1923. (Juniata X. mesopotamica.) A very tall vigorous plant with fine foliage and very large deep mauve to light violet flowers. The size and height make it an outstanding feature in our garden. Very vigorous. 40 in.		75c; 3 for \$1.75

Each

- CORONADO** (Mohr) 1925. Aglorious flower of the Asia class of Eldorado-mesopotamica parentage. Of heavier substance than Asia with flaring falls, wider branching stems, and greater vigor. S. lavender; F. red purple paling to lavender margins; beard and style arms golden. 36 in. Early to late season\$1.50
- CRIMSON GLOW** (Millet) 1924. Large handsome well shaped flowers of a uniform shade of brilliant crimson rose. S. frilled, incurved; F. exceptionally broad. Very free flowering\$2.00
- DELICATISSIMA** (Millet) 1914. Large wax-like flowers of excellent substance. Color soft Cattelya rose. 36 in.\$1.00 each
- DOMINION** (Bliss) 1917. The most richly colored of all the Dominion race and the outstanding member because of the extraordinary development of the falls. S. light bluish violet, large, erect and of good breadth; F. deep rich indigo purple velvet, well expanded and of exceptional substance. Pronounced orange beard. 30 in.\$5.00
- DUKE OF BEDFORD** (Bliss) 1922. A very fine iris of the Dominion race with well formed flowers of great substance. It is a deep rich violet purple, almost a self, very velvety and brilliant. Beard orange. stalks low and widely branched. Vigorous.\$5.00
- GERMAIN PERTHUIS** (Millet) 1924. An enormous rich violet purple self with striking orange beard. A seedling of Souv. de Madame Gaudichau. Tall, well branched, free flowering with wonderfully smooth velvety appearance. Sweet scented. 36 in.\$5.00
- GLOWING EMBERS** (Sturtevant) 1923. S. light brownish lavender; F. very rich velvety pansy purple with orange beard and conspicuously yellow cenetr. A rich heavy flower on a tall well branched stem. Vigorous. 48 in. \$3.50
- GOLD IMPERIAL** (Sturtevant) 1924. Chrome yellow throughout except for the orange beard, it has rare finish of texture and form\$3.00 each
- J. B. DUMAS** (Denis) 1917. S. violet rose; F. deeper tone of same color, haft rich creamy yellow, conspicuous yellow beard, orange tipped. Stalks well and widely branched. 44 in.\$1.00
- JEAN CHEVREAU** (Cayeaux) 1923. Large flowers of fine texture. S. cream tinted buff yellow; F. milky white thickly stippled violet brown at throat and haft margins. Beard dense yellow. Distinctive and of good quality throughout. 36 in.\$1.00
- KING KARL** (Jacob Sass) 1925. A beautiful frilled plicata. S. light pinkish cinnamon; F. cream, sprinkled Lizeran purple all over the fall. Beard yellow. Good substance, darker than Jubilee\$2.00
- KING TUT** (H. P. Sass) 1926. S. and stigmas cacao brown; F. Hessian brown; haft and beard golden yellow\$7.50
- LORD LAMBOURNE** (Perry) 1923. S. bronze suffused rose fawn; F. rich madder crimson. Bright yellow beard. \$2.50
- MADAME DURRAND** (Denis) 1921. An iridescent buff, flushed with lilac and amber. A wonderful Ricardi hybrid. Large flowers on tall well branched stems. 48 in.\$2.00; 3 for \$5.00
- MADAME GAUDICHAU** (Millet) 1914. S. Bradley's violet; F. brilliant blackish purple. An unusually dark velvety bicolor of fine shape and finish and of exceptional substance. Stalks high and widely branched. Growth rampant. 36 in.50c; 3 for \$1.00
- PRIMROSE** (Sturtevant) 1923. S. amber yellow; F. lighter barium yellow, center of flower clear lemon yellow. Long blooming, fine for mass effect. 30 in.\$2.50
- RAMELDO** (Mohr) 1925. (Ramona X Eldorado.) Brownish peunia violet. Very unusual and perfectly hardy anywhere. 30 in.75c
- RAMONA** (Mohr) 1924. (Juniata X Pfauenage.) A new blend of colors, petunia violet flushed cinnamon brown, lightened up by an orange beard. Fine form and substance; vigorous growth. 24 in.75c
- ROBERT W. WALLACE** (Perry) 1923. A magnificent dark pallida. S. rich violet; F. very deep purple black, beard conspicuously orange tipped\$3.00
- ROSADO** (Mohr) 1925. (Parisiana X mesopotamica.) A most beautiful clear soft pink, tall, strong growing and of unusual size. Hardy in Massachusetts as well as in California. 42 in.\$2.50
- SAN GABRIEL** (Dean) 1921. A very large pinkish lavender of high excellence adding to its other merits the virtue of being early and long blooming. Branching and very graceful. 48 in.\$1.50
- SUNSET** (Denis). The standards of this lovely iris are like cloth of gold, the falls of the same but suffused with blue violet. A strong grower, free fflowering, late and scented.\$1.00
- YELLOW MOON** (Sturtevant.) An amber yellow self of pallida habit. Long blooming, fine for mass effect. 36 in.\$1.50

INTERMEDIATE HYBRIDS

These hybrids are a cross between the tall bearded Iris Germanica and the dwarf Iris pumila. As a result they are of medium height (12 to 24 inches) and flower after the early dwarfs and before the tall bearded, thus filling in the gap between these two types. They are free flowering, vigorous growers and very hardy.

	Each	Doz.
BLUE BOY. S. bright clear blue; F. dark blue	.30	3.00
DOROTHEA. S. pearl gray; F. light blue	.35	3.50
FRITJOF. S. lavender; F. purple shaded lavender	.30	3.00
GERDA. S. creamy yellow; F. deeper with golden veins. Very beautiful	.35	3.50
HALFDAN. Lovely creamy white flower with golden veined throat and yellow beard. Fragrant	.30	3.00
HELGE. Citron-yellow with pearl-colored center	.35	3.50
INGEBORG. Large pure white with golden veined throat	.30	3.00
WALHALLA. Fine large flower with light blue standards and rich violet-purple falls	.30	3.00
QUEEN FLAVIA. Primrose yellow	.25	2.50
ZUA. Unique flower of uniform soft gray; curiously crinkled petals. Fragrant	.50	5.00
ZWANENBURG. A Pogocyclus hybrid, but included in this section on account of the similarity to the other "intermediates." S. cream colored blotched pale violet; F. light yellow, splashed olive-brown	.50	5.00
Collection of one each of the ten fine hybrid Iris listed above, all separately labelled, \$3.00. Collection of any five, our choice, \$1.75.		

Collection of one each of 6 varieties, our choice for \$1.25

IRIS PUMILA

(DWARF BEARDED IRIS)

A miniature race of Iris similar in form to the tall bearded type. These lovely little gems are early bloomers, appearing soon after the Stylosa or Winter-blooming iris have gone. Especially good for the rockery. Every iris lover should have a few at least.

	Each	Doz.
ATROVIOLACEA. Rich velvety red purple	.25	2.50
BRIDE. Early white, fragrant	.25	2.50
BRIDESMAID. Creamy white with bronze markings	.35	3.50
CANARY BIRD. Straw yellow, orange beard	.35	3.50
CYANEA. rich deep blue	.25	2.50
DITTON-PURPLE. Clear violet-purple	.30	3.00
EXCELSA. Lemon yellow with orange beard	.50	5.00
FORMOSA. Dark blue	.35	3.50
LA FIANCEE. White	.30	3.00
PRAIRIE GEM. Yellow	.35	3.50
ROYAL PURPLE. Rich purple	.35	3.50

DWARF BEARDLESS IRIS

	Each	Doz.
GRAMINEA. Similar in shape to the dwarf bulbous iris Reticulata. The flowers are red-purple and fragrant. Very scarce	1.75	
ENSATA. A handsome soft lavender dwarf from Asia, flowering over a long period beginning about the same time as Iris pumila. Does equally well in moist or dry situation	1.00	
VERNA. Pretty little lavender iris. Native of Virginia. Requires an acid soil and does well in partial shade	.35	3.50
Also see dwarf beardless, dwarf crested and tall crested.		

UNGUICULARIS

WINTER BLOOMING IRIS

The plants start blooming in the fall and bloom throughout the winter. They grow wild in Algeria, Greece, and Asia Minor. The foliage is grass-like and the flowers are borne on stem-like parts, really elongated perianth tubes, 8 to 16 inches long. The flower is one of great refinement and is delightful in the house. Plant preferably from August to December. We do not advise planting later than February except in balled clumps.

	Each	Doz.
STYLOSA. Lilac blue with grassy evergreen foliage	.25	
STYLOSA MARGINATA. A form of bluer hue and somewhat broader foliage than above. Makes a very rank growth	.25	
STYLOSA ALBA. A white form. Dozen \$2.50	.25	
STYLOSA SPECIOSA. A violet form, narrower foliage and somewhat smaller flower and shorter perianth tube	.25	
QUEEN ELIZABETH. A dwarf form, violet and white. Very floriferous	1.00	

TALL CRESTED IRIS

	Each	
FIMBRIATA (Japonica). Native to Central China. The flower stems, which usually appear in February, are much branched and the individual flowers are so numerous that the display continues for some weeks	.50	
TECTORUM. The well known Roof Iris; flat blue-purple flowers with a conspicuously fringed white crest	.50	
TECTORUM ALBA. The exquisite white form of the preceding	2.00	
MILESII. Flowers reddish purple with darker mottlings. The branching stems grow from 2 to 3 feet in height	5.00	

CRESTED DWARF IRIS

	Each	Doz.
CRISTA. Tiny wild species from North Carolina. Clear lavender with gold tinge. Will grow in any location, but prefers some shade and a good covering of leaf mold	.35	3.50
CRISTATA ALBA. A lovely white form of the above. Very scarce	2.50	
GRACILIPES. Dainty little Japanese crested iris. Pale lavender flowers, touched with orange. Likes part shade with a well drained soil mixed with leaf mold and plenty of moisture	2.00	
WATTII. Very rare and unique Iris from the Himalayas. Similar in growth to a dwarf bamboo. Flowers white or lightly tinged. Hardy in Southern California but should be protected well in cold frames during winter in other states	7.50	

IRIS KAEMPFERI (Japanese Iris)

LATE FALL AND SPRING DELIVERY

As these magnificent Iris become better known they gain in popularity and a field of them in bloom or a few specimens artistically arranged in the water garden is truly a lovely sight. These Iris are the last to bloom, coming into flower the first part of June and continuing for two to three weeks, they fill in a period when flowers of this attractive type are particularly welcome. They have proven hardy in a number of states, but should be covered with straw in the Northern and Eastern states to prevent freezing and thawing.

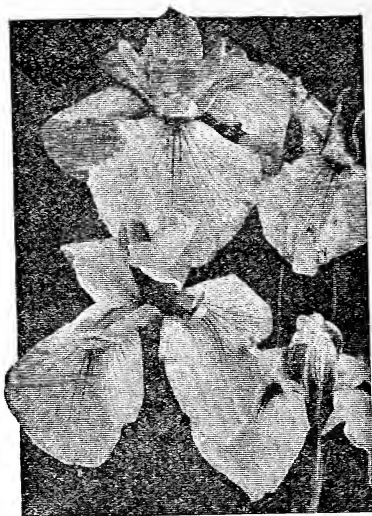

Japanese Iris may be planted in the Spring or in the Fall from September until the ground freezes. They require plenty of sunlight, a heavy, moist, but well drained soil and will stand considerable enrichment in the shape of a mulch of sheep manure. Other strong fertilizers or lime should not be used. Two or three clumps may be potted up in about a 12 to 14 inch Azalea or fern pot and started in the greenhouse or coldframe during the Winter and then placed among the aquatics, where they will bloom in the proper season.

RECENT INTRODUCTIONS OF IRIS KAEMPFERI

	Each	Doz.
TARTAR PRINCE. Rosy-crimson, white veins, blue halo	.60	6.00
CHUTSAL. Hortense violet, veined white, inner petals phlox purple	.60	6.00
ISPAHAN. Phlox purple veined white	.70	7.00
KHA KHAN. White suffused blue, purple stigmas	.55	5.50
MONGOL KHAN. Deep rosy-red, extra large	.75	7.50
REPSIME. Blue veined white	.65	6.50
SADARABAD. White overcast with pale phlox pink	.75	7.50
TEMPLE FLOWER. Ivory white, heavily blended with soft bluish-violet. Veined white	.70	7.00

STANDARD VARIETIES

APOLLO. Single. Pure white, pink center	.30	3.00
AZURE. Double. Immense flower, exquisitely wavy. Mauve-blue with darker halo around the yellow blotch at base of petals	.35	3.50
BLUE JAY. Double. Sky blue, distinct white lines on each petal	.40	4.00
CATHERINE PARRY. Double. Blue, overlaid rosy-red; high tufts in center, almost triple	.35	3.50
CLARICE CHILDS. Single. Petunia-violet; conspicuous yellow center surrounded with blue cast. Large	.50	5.00
DORRIS CHILDS. Double. Pearl-white, deeply veined rosy plum. Center petals deep plum edged white	.50	5.00
ELEANOR PARRY. Double. Claret-red, flamed white and blue. Compact, medium sized flower	.40	4.00
FASCINATION. Double. Blue, lightly veined white, pink tinge. Beautiful variety	.40	4.00
GOLD BOUND. A fine double, pure white; creamy glow at the gold-banded center	.35	3.50

	Each	Doz.
GRANITE. Single. Purple, spotted and flaked white. Lilac center30	3.00
INDO. Single. Broad, wavy petals of great size; color dark rich blue, slightly veined. Yellow blotch is unusually bright35	3.50
LA FAVORITE. Large, fine; white freely veined blue, and a rich purple center40	4.00
MARS. Single. Reddish purple, striped and blotched white30	3.00
MT. HOOD. Double. Light blue, shaded darker. Bright orange center35	3.50
PYRAMID. Double. Violet-purple veined white in center of each petal35	3.50
RED RIDING HOOD. Single. Amaranth veined and suffused white30	3.00
ROSE ANNA. Double. Ivory white, heavy ruby-red veins, conspicuous yellow blotch, stigmas dark plum40	4.00
SHADOW. Single. Self color, reddish purple. Very large and fine blossoms35	3.50
TEMPLETON. Double. Light violet mottled reddish pink and white; of exceedingly fine form75	7.50
T. S. WARE. Double. Reddish violet flowers of large size, beautifully veined white, center white with lemon-yellow marking35	3.50
Collection of ten of these beautiful Japanese Iris, each labelled, our selection from the above list, for \$3.00. Five, all different, our selection, for \$1.75.		

	Doz.
Mixed colors, both single and double varieties. Splendid assortment	2.50

MISCELLANEOUS ASIAN SPECIES

	Each
CHRYSOGRAPHE. Chinese species introduced by E. H. Wilson. The color is rich purple with gold lines on petals and gold dots in throat. Very rare	3.50
DELAVAYI. Interesting tall blue species from Western China. Scarce	1.00
EPAULETTE. A hybrid of two distinct Chinese species, Bulleyana and Chrysographes. Supply limited	5.00
FORRESTII. Clear yellow flowers about 15 inches tall. Discovered by George Forrest in N. W. Yunnan	1.00
IRIS FOETIDISSIMA, or GLADWYN, has fine evergreen foliage. The flowers are not pretty but in the late fall the seedpods open out to show rows of scarlet seeds of much beauty. They are much prized as winter decorations25

PACIFIC COAST SPECIES

The West has many beautiful Iris, all rather dwarf and suitable for the "wild flower garden" or for planting along wooded paths. Are rather difficult to transplant, but well worth the effort required to establish them. Give the same treatment as other wild species. Plenty of leaf mold is required for best results.

	Each	Doz.
BRACTEATA. Dwarf, golden yellow25	2.50

	Each	Doz.
CALIFORNICA. Deep blue, rather dwarf25	2.50
CALIFORNICA. Varied shades of yellow, blue and violet25	2.50
CHRYSOPHYLLA. Slender, light yellow flowers30	3.00
DOUGLASSIANA. Flowers blue and cream. Mixed only25	2.50
GORMANI. Dwarf, narrow leaves and lovely soft yellow flowers75	7.50
HARTWEGGII. Yellow, very dwarf25	2.50
HARTWEGGII. Blue shades25	2.50
LONGIPETALA. Light blue, similar in growth to Japanese Iris. Makes a dense group with erect foliage and tall, stiff stems. Prefers moist situation35	3.50
MACOSIPHON. Blue-purple flowers with white stripe. Fragrant50	5.00
PURDYI. Low growing with beautiful cream colored flowers, lined purple. Lovely in groups.....	.40	4.00
TENAX. Tiny, reddish purple flowers. Likes moist soil25	2.50
TENUIS. Wide leaved woodland iris. White flowers, with purple and gold markings. Give light soil mixed with leaf mold50	5.00
Collection of ten of these lovely woodland Iris, all different and labelled separately, but our selection, \$2.00.		
Five, all different, our selection, \$1.00.		

AMERICAN SPECIES AND VARIETIES

	Each
CACIQUE. Beautiful fulva hybrid, Prune-purple shade	3.00
DOROTHY K. WILLIAMSON. Hybrid of Fulva and Foli-osa. Velvety purple75
FOLIOSA. Lovely species from the South, but hardy in most states. Bright blue flowers among heavy foliage. Fine for rock-garden75
FULVA. Copper colored iris, native to the Southern states. Requires part shade in moist location	1.00
FULVALA. Cross between Iris Fulva with Lamancea. Similar to Fulva, but more coppery	3.00
HEXAGONA. A fine species, bearing lavender flowers on a tall stem50
MISSOURIENSIS. Pale violet with delicate markings. Native to the Rocky Mountain region. Requires moisture in growing season40
PRISMATICA. (Cubeseed Iris) Flowers about 18 in. tall, pale lavender shade.....	.35
PSEUDACORUS. A water loving species with bright yellow flowers on long stem. Fine for water gardens30
PSEUDACORUS baxteri. Light yellow subspecies	1.25
PSEUDACORUS gigantea. Similar to the preceeding, but larger75
PURPURPEA. Natural hybrid of Hexagona and fulva. Handsome, rich purple	1.25
SAGAMORE (Berry). A fine tall Fulva hybrid, on the order of Cacique, but larger and redder.....	15.00
SAMBUCINA. Rosy-copper, with orange tinge. Named on account of its odor, which resembles that of Elder (Sambucina)	1.00
SAVANNARUM. Tall blue native from the Florida swamps. Hardy in Southern California and other mild climates	1.50
VERSICOLOR. Violet blue Iris found along watersides in some of the Southern states. Will grow in any good garden soil, but especially fine for water garden. Per dozen, \$3.5035
VIRGINICA. The wild swamp Iris of Indiana. Sub-species of I. Versicolor and similar in appearance75

WILD TYPES OF POGONIRIS

These wild forms of bearded iris should be useful for hybridizing work, or interesting to those concerned in making a collection of Iris types and species.

	Each
ALBICANS. Lovely white flowering iris. Very early and blooms for a long time25
AMAS. Very large, broad-petaled type from Asia Minor35
BILIOTTI. Low growing, dark blue iris from Asia Minor	1.25
CENGIALTHI. Small, lavender iris from Northern Italy75
COMO. Lovely pallida from Northern Italy	2.00
FLORENTINA ALBA. White with gray tone. Blooms in midseason25
ISTRIA. Beautiful white species with green tinge. Collected in Italy, near Fiume	5.00
NEPALENSIS. A blackish-purple form of Kochii35
PALLIDA DALMATICA. Similar to above, but larger35
SYRACUSE. Fine large-flowered form of albicans collected from Sicily	7.50

IRIS SPUREA

LATE FALL DELIVERY

This group contains a greater variety of shades than found in most other species of beardless iris, ranging from almost white, and cream to deep rich yellow and from pale lavender to blue-purple. They grow from 2 to 5 feet tall and are desirable to plant along streams or around pools or ponds. They are exquisite cut flowers and when cut keep well.

BRANIN HYBRIDS

I am pleased to be able to offer for the first time the following collection of Spurea Hybrids originated by Mrs. Jemima Branin, one of our most ardent Iris lovers. Mrs. Branin has been working for a number of years with these beautiful "Butterfly Iris," until she has now produced quite a number of new varieties, with larger flowers and loveliest shades yet introduced.

	Each
ALICE EASTWOOD. Magnificent ochroleuca hybrid.	
Beautiful shade of rich yellow	10.00
GOLDEN GATE. Tall bold flower of golden yellow	12.50
MARY NULTY. Lovely pure white flower, very tall	12.50
NELLIE STUART. Beautiful tall flower. Fine shade of blue	12.50

STANDARD VARIETIES

AUREA. Tall, deep yellow. One of the finest.....	.75
A. J. BALFOUR. Fine, tall blue hybrid of Monspur. Very scarce.	1.50
DOROTHY FOSTER. Beautiful violet standards with fall striped lighter. Medium height	2.50
JUNO. Lovely blue-purple flower of the Monspur type. Quite hardy	1.50
LORD WOLSELEY. Large, handsome flower similar to Juno but not quite as tall	1.00
MONNIERI. Rich, golden yellow, similar to Aurea, but quite hardy. Prefers moist situation	1.00
MONSPUR. Tall, blue-purple. A cross between "Monneri" and "Spuria" type75
MRS. A. W. TAIT. Handsome, soft porcelain blue75
NOTHA. Fine, pale lavender75
OCHRAUREA. Elegant flower, in two shades of yellow. A cross between "Ochroleuca" and "Aurea".....	2.00
OCHROLEUCA. Flowers white and gold. Very tall50
OCHROLEUCA SULPHUREA. Yellower than above75
SPUREA. Lavender-blue75

Collection of ten of these stately Iris, full range of colors including deep cream, white and yellow, golden yellow, pale lavender to blue-purple. All different and labelled separately. Our selection, \$7.50. Five all different, our selection, \$3.00.

PALESTINE HYBRID IRIS

FOR EARLY FALL DELIVERY ONLY

This group contains the most curious, yet beautiful of all Iris. Their flowers are strikingly veined on white, soft violet-purple or brown ground. To grow this type of Iris successfully where winters are severe or summers subjected to occasional rains, it is necessary to dig the roots each season after the leaves have died down (about the end of June) washed, and dried off for a day or two and then stored in a box of very dry sand until time to replant. Tobacco dust added to the sand is used as a protection against aphids.

The planting should be done a few weeks before the ground freezes, three or four inches deep and then covered with a mulch of straw or dried leaves, to prevent heaving. A light frost will not injure the roots, but will kill the new growth. Therefore, the roots should be kept bone dry after planting, inasmuch as growth starts very readily upon the addition of moisture, if the temperature is mild.

ONOCYCLUS

	Each
SUSIANA (Mourning Iris). Enormous flowers of grayish white veined black-maroon	1.50

REGELIA TYPES

HOOGIANA. Soft uniform blue	1.00
KOROLKOWI. Native of Turkestan. Silver-gray, veined blackish purple. Very odd	2.00
STOLONIFERA. Beautiful bronze and steel-blue	2.00
VAGA. Purple, blue and bronze	2.00

REGELIO-CYCLUS HYBRIDS

ASPASIA. Reddish lavender, veined darker	1.50
BEATRIX. Pale violet, dark veined, falls soft pearly-gray with dark violet veins	2.00
CHARON. Bronze, veined gold and brown	1.50
FLECTA. Pale lavender standards with light purple falls	1.50
FRIGA. A wonderful, large hybrid. Standards violet, lined purple; falls rich purple lined white	2.00
HEBE. Violet-blue veined on pale ground, falls pearly-gray violet veined	1.50

IRIS SUSIANA

	Each
HECATE. Lilac-rose, falls on creamy ground brown feathered	1.50
HERA. Beautiful flower shot with ruby, bronze and blue	1.50
IRENE. Flushed with pale lavender and veined with lavender-purple. Falls, silvery gray, prominently veined with dark lavender-purple	1.50
ORESTES. Self-colored dark bronze with purple hue	2.50
OSIRIS. S. cream heavily flushed lilac purple; F. veined rich purple over white grown	1.50
PSYCHE. White veined violet. Brown blotch in throat....	2.00
SATURNUS. Pale lilac-violet, falls gray, violet veined ..	1.50

POGONO-CYCLUS TYPES

The following group of Iris are the result of crosses between various Onocyclus and Regelia types with the tall Iris Germanica. They are quite interesting and with care are not too difficult to grow. The same culture should be given them as suggested for the Onocyclus and Regelia types. A sunny situation is necessary.

	Each
CARMELO (Mohr). A Korolkowi x Germanica seedling of medium size and blue-violet shade75
CONGRES. Deep reddish bicolor	2.00
DORAK (Foster). Gigantic flower with light violet standards and falls darker violet, beautifully veined....	1.50
GIRAN (Foster). Beautiful wine colored flower with handsome veining	2.50
HAMADAN (Foster). A uniform shade of rich violet. with white throat overlaid with purple veins and with a black beard	1.50
IBPALL (Foster). A hybrid of Iberica x Pallida. Deep red-violet, veined purple	1.00
NAZARINE (Foster). A seedling of Pallida x Iberica. A beautiful purplish-violet hybrid	2.00
NEFERT. Soft blue without markings	1.50
PARVAR. Dark variety with black violet standards and falls, with a velvety sheen.	2.50
SHIRAZ. Standards are soft uniform bright violet shade. Falls are a deeper shade	2.50
WILLIAM MOHR. Soft velvet, beautifully veined bright manganese violet	5.00
ZWANENBURG. S. Cream colored, blotched pale violet. Falls, light yellow, splashed olive-brown50

BULBOUS IRIS--HOLLAND TYPE

BULBOUS IRIS FOR FALL DELIVERY

One of the most satisfactory varieties to grow, being particularly hardy in most states, but should be well covered during the winter, with straw or leaves, in the East.

The Orchid-like flowers are of great beauty, having many different shades and blendings of color, and if cut in the bud will keep for a long time in water. For best effect they should be planted in clumps of 25 or more bulbs or are very satisfactory placed in a long row in the hardy border. Plant in September, six inches apart and two to three inches deep. They bloom soon after the daffodil season.

ADRIAN DACKER. Early rosy lavender, extra Doz. 100 large	2.00	12.00
ALBERT CUYP. White, pale lemon falls	1.50	7.50
ANTON MAUVE. Lovely uniform shade of soft blue	1.50	7.50
DAVID BLESS. Early, light blue; very large	2.00	12.00

	Doz.	100
DAVID HARING. Tall, large white, golden center. Fine flower	2.00	12.00
E. B. GARNIER (New). A splendid large, tall dark blue	2.50	15.00
FRANS HALS. Creamy white and pearl blue	1.00	6.00
HART NIBBRIG. Clear, deep blue	1.25	6.75
HEEMSKERK. (New) One of the earliest, largest and finest yellow variety	3.00	20.00
HOBHEMA. Pale blue, yellow falls	1.50	7.50
HUCHTENBERG (New). Very large orange yellow with pale blue standards	2.00	12.00
J. W. de WILDE (New). A beautiful shade of golden yellow with bronze sheen.	3.00	20.00
THERESA SCHWARTZ. Light lilac and creamy white. Beautiful	2.00	12.00
WHITE EXCELSIOR. Large pure white with yellow blotch	2.00	12.00
YELLOW QUEEN (New). Magnificent pure yellow. Tall, strong grower. The best of the very few yellow Iris yet introduced of the Holland type	2.50	15.00
Collection of 100 bulbs in five named varieties, in shades of light and dark blue, blue and yellow, white and yellow, white and lilac and pure yellow. Fine large bulbs for \$10.00 Fifty large bulbs for \$5.50.		
Assorted colors	Doz.	100
	1.00	6.00

SPANISH TYPE

FOR FALL DELIVERY

These are similar to the Holland Iris, blooming later, and are not as tall, but contain shades of bronze which the Holland Iris do not have.

	Doz.	100
BELLE CHINOISE. Early yellow75	5.00
BLANCHE FLEUR. Fine White75	5.00
BRITISH QUEEN. Large pure white75	5.00
CAJANUS. Late yellow	1.00	6.00
FIORA. Large white and lavender75	5.00
KING OF BLUES. Tall dark blue75	5.00
KING OF WHITES. Large pure white75	5.00

THUNDERBOLT. Dark bronze, blue sheen. Extra large and stately	1.50	7.50
FINE MIXTURE of bulbs, good assortment of colors65	4.50

Collection of 100 bulbs, named varieties, our selection, for \$5.50; 50 bulbs for \$3.00.

ENGLISH IRIS

EARLY FALL DELIVERY

Similar to the Holland, but later. Beautiful flowers of pure white and in all shades from pale lavender to deep purple, some dotted, spotted, splashed and mottled.

These Iris are very hardy and should grow satisfactorily in the Eastern states, but unlike other types of bulbous Iris, they need a cool, moist soil and will not succeed in a hot, dry situation. They need not be lifted more than every three years to separate and should be stored in dry sand until they can be replanted.

Do not break off the side bulblets. To do so may cause decay.

FRANS HALS. Porcelain blue on white	Doz.	1.75
GRAND LILAS. White and lavender		1.50
JOHN DUCKER. White flushed rosy purple		2.00
MONT BLANC. Pure white		1.75
PRINCE OF WALES. Rich deep blue		2.00
PRINCESS DAGMAR. Creamy-white, reddish mauve spots		1.75

PERLE des JARDINS. Pearl, flamed light blue		2.00
ELECTRA. Pale blue tinted lilac		1.75
SURPRISE. Velvety indigo blue		2.00
Collection of 50 large bulbs in ten varieties, our selection, for \$7.00; 25 in eight varieties, \$3.75.		
MIXTURE OF English iris, many varieties, all colors	Doz.	100 10.00

BULBOUS IRIS—RARE SPECIES

BUCHARICA. Native of Bokhara, height 1½ to 2 feet. Soft yellow flowers with deeper yellow on the lip of the falls. The foliage is unique, resembling a miniature corn stalk, with flowers at the top and at the axis of each leaf. Requires some protection. Each.....\$2.50

HISTRIODES (Reticulata Type). Bright blue with a yellow ridge in center\$1.50 each

HISTRIO (Reticulata Type). Similar to above. Name means "actor" in Latin\$1.50 each

JUNCEA. Native of North Africa. Fragrant yellow flowers, similar to the Holland and English in form\$1.50 each

PAVONIA. The true Peacock Iris from Cape Colony and botanically known as *Moraea Glaucoptis*, *Moraea* being the African representative of the Iris. While of a fragile nature, this variety is well worth the while in your garden—a wonderful white Iris with segments the size of a quarter dollar with a blue spot at the base like a Peacock eye. Stock is very scarce in America. Strong corms, 50 cents each; dozen\$5.00

PERSICA. A dwarf species of the Juno type from Asia Minor; the color is white, tinged sea-green; purple blotch on falls. Requires protected location with heavy mulch or grown in pots indoors. Each\$2.50

IRIS RETICULATA. A pretty little dwarf bulbous Iris. The name being Latin for "Little Net," which describes the appearance of the outside of the bulb. The flowers are blue, tall and something like a Spanish Iris in shape. These bulbs are very small. Each\$1.00

SISYRINCHIUM. A bulbous plant closely allied to the Iris, while it is really a *Moraea*. Blooms last only a few hours\$.50 each

FILIFOLIA IMPERATOR. The outstanding type in bulbous Iris. Very hardy, tall growing, good forcer, immense large blooms of deep blue, fall edged yellow Each Doz. Large bulbs15 1.00 Medium size10 .75

TINGITANIA

A handsome species from Morocco. Earliest and largest of all Xiphiums. Hard to flower in cold climates unless forced.

Each Doz.
THE FIRST. Beautiful deep blue. Large bulbs50 5.00 Medium size bulbs25 2.50

WEDGEWOOD. Large clear blue1.00 10.00

TUBEROSA (*Hermodactylus Tuberosa*)

Sometimes called "Snakes-head" or "Widow" Iris, which botanically is not an Iris, but a curious little plant that receives its name from the finger-like tubers that form its rootstock. The flowers are velvety green black and have a weird beauty of their own\$1.00 each

VARTANI (Reticulata Type). Bright blue spots on ground. Almond scented and earliest to bloom\$1.50 each

IXIAS (African Corn Lily)

Fall Delivery

Attractive bulbs native to South Africa, with grass-like foliage and spikes of flowers in early spring. They close at night and remain closed on dark days. For cut flowers they cannot be surpassed. Mulch with straw or leaves 3 inches deep.

REDIVIVA, also deciduous, is a small plant, with large, satiny-pink flowers of great beauty ..

.15 1.50

Collection of 1 each of 6 varieties, all labelled separately, our selection

\$1.00

LILIES

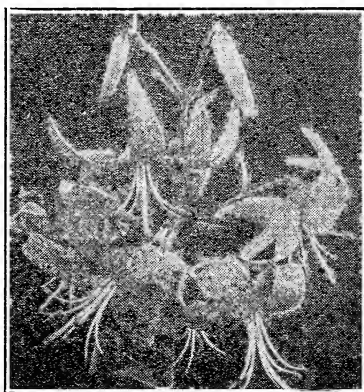

Lilies are without doubt among the most beautiful and lovely of the summer flowers. They would be cultivated more generally but for the notion they are hard to grow. Some of the rarer species are, it is true; they not only stubbornly refuse to make themselves at home in the garden, unless conditions are precisely to their liking, but some of them cannot endure the northern winter without the necessary covering of litter, which many other tender plants require. Unless one goes in for Lilies to the extent of making a hobby of them, however, these can all be left to the collector and there will be quite enough species remaining to give one a lily season in the three months duration of which loveliness follows loveliness with breaks of only relatively brief length.

Each Doz.

AMABILE. Grenadine red; spotted black

.50 5.00

	Each	Doz.
AURATUM (Gold-Banded Japan Lily). Undoubtedly one of the finest. Its large graceful fragrant flowers are composed of six petals of a delicate ivory-white color, thickly studded with chocolate-crimson spots and striped through the center a golden yellow; 3 to 5 feet. July to September25	2.50
AURATUM PLATYPHYLLUM . Also called "Macranthum." This is a robust growing form; the stem is stouter and attains a greater height; the leaves are much broader enormous flowers, white, richly spotted yellow. Undoubtedly the choicest of all35	3.50
Larger size50	5.00
BATEMANNAE . Strong stems with 5 to 10 flowers of a reddish orange color. July-August. 3 to 4 feet40	4.00
BROWNII . A vigorous grower with large trumpet-shaped flowers of clear white, veined outside with purplish maroon	1.00	10.00
CALLOSUM . Orange red self. A rare and beautiful lily50	5.00
CANDIDUM . The old fashioned Madonna Lily; snow white flowers30	3.00
CERNEUM . A deep lilac-pink, spotted wine color. Very fragrant75	7.50
CHALCEDONICUM . The Scarlet Turks-cap	2.00	20.00
CHALCEDONICUM maculatum . Dark scarlet, spotted black at base	5.00	
COLCHICUM (Scovitzianum). A beautiful lemon-yellow Lily, produced in pyramid clusters of drooping, waxlike flowers. Jun. 4 to 5 feet	1.25	12.50
CONCOLOR . Red Star Lily. Erect flower, deep-scarlet. Dwarf. Suitable for rock-gardens. June, July35	3.50
CROCEUM . Orange Lily. Bright orange, erect flowers. June, July35	3.50
HANSONII . Most desirable; not particular in its cultural requirements and extremely handsome in flower; does well in light loam. Plant among shrubs and low plants to protect young shoots, this being one of the earliest lilies to appear in the Spring. The stem reaches a height of 4 to 5 feet, carrying blossoms 2 inches across, regularly reflected, the petals being of a bright orange, spotted more or less with brown, of a wavy texture. Admirable for pot culture. June flowering75	7.50

LILIUM HENRYI

HENRYI . A new Japanese Lily that has made a sensation in Europe. It has the same form and appearance as the speciosum varieties, but the flowers are a bright orange-yellow. They are as hardy as a tree. Easily grown and permanent ..	.40	4.00
Extra large size75	7.50
KRAMERI . Unique for its color and grows from 2 to 4 feet high. The funnel-shaped, finely formed flowers are 6 inches or more in length and as much across, of a beautiful clear pink color, often shaded blush50	5.00
LEICHTLINI . An uncommon kind from Japan. Pale yellow, purple spots. Very graceful. August ..	.50	5.00
MARTAGON (Dalmaticum, Turk's Cap Lily). A handsome Lily, bearing clusters of purple, wax-like flowers. Thrives best in partial shade. June. 5 feet40	4.00

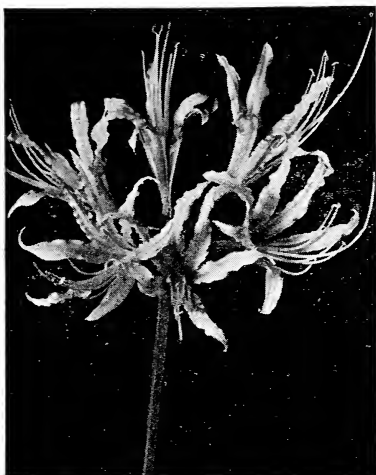

PHILIPPINENSE formosanum. White with reddish brown exterior	1.25	12.00
POMPONICUM. A brilliant red Turk's Cap lily. Much like Chalcedonicum, but with the heads of flowers rather more loosely arranged. June. 3 to 4 feet	1.50	15.00
PYRENAICUM (Yellow Turk's Cap Lily. A lily of easy cultivation, with many small, yellow flowers, dotted brown. Reflexed petals. June. 3 feet75	7.50
REGALE It is absolutely hardy, and is excellent for forcing. It has been predicted that this will become the Easter Lily of the future, and being so hardy, may be grown at home. The flowers are white, slightly suffused with pink, with a beautiful shade of canary-yellow at the center, and extending part way up the trumpet. It is delightfully perfumed, reminding one of the Jasmine, and lacking the heavy, oppressive odor of most Lilies. Blooms out-of-doors early in July. Medium size25	2.50
Strong bulbs, 5 to 6 inches in circumference30	3.00
Strong bulbs, 6 to 7 inches in circumference40	4.00
RUBELLUM. Beautiful small lily. The color varies from a deep rose-pink to almost white, with yellow antlers; very fragrant, small funnel-shaped flowers; grows 1½ feet high. It does best in light soil50	5.00
SPECIOSUM MAGNIFICUM. Magnificent large flowers of rich deep red. Large size50	5.00
Second size30	3.00
SPECIOSUM ALBUM. The Speciosum or Lancifolium are the most important of all the Japanese Lilies. Always satisfactory. The variety here offered has large, white flowers of great substance, with a greenish band running through the center of each petal Large size75	7.50
Second size50	5.00
SPECIOSUM RUBRUM. A darker shade of red and crimson markings than the preceding. Large size50	5.00
Second size30	3.00
SARGENTIAE. Milk white flowers with yellow throat	1.25	12.50
SULPHUREUM. Large flowers of pale yellow, outside streaked claret red	2.00	20.00
TESTACEUM (Exelsum or Nankeen Lily). This is one of the finest of all lilies. The color is difficult to describe, being a shading of dull apricot with orange-yellow anthers. A most graceful lily and a good companion to L. candidum. June-July. 5 feet. Extra large flowering bulbs easily grown and permanent	2.50	25.00
TENUIFOLIUM. A small, slender growing lily not more than 18 inches high, with bright scarlet flowers and recurved petals. One of the prettiest little lilies in cultivation. Early June. 12 to 18 inches35	3.50
THUNBERGIANUM (Elegans). Very hardy, dwarf Lilies thriving in any garden and producing large, erect flowers of various shades of yellow, orange and red. All varieties grow from 1 1-2 to 2 feet and bloom during June and July. Mixed colors25	2.50
TIGRINUM FLORE PLENO (The Double Tiger Lily). The only double Tiger Lily worth growing35	3.50
THUNBERGIANUM (Elegans). Very hardy, dwarf Lilies thriving in any garden and producing large, erect flowers of various shades of yellow, orange and red. All varieties grow from 1½ to 2 feet and bloom during June and July. Mixed colors25	2.50
TIGRINUM SIMPLEX (The well known Single Tiger Lily). Of easy culture and worthy of general planting on account of stateliness25	2.50
UMBELLATUM erectum. Splendid form; rich red35	3.50
UMBELLATUM Grandiflorum. Orange red; very fine35	3.50
UMBELLATUM Incomparabilis25	2.50
“ Sappho25	2.50
UMBELLATUM Mixed. Yellow, orange and crimson shades35	3.50
WALLACEI. A handsome Lily of a beautiful shade of the warmest apricot with rosy shading. August. 1½ to 2 feet35	3.50
WILLMOTTIAE. One of the finest garden lilies, although little known. Lovely in its graceful habit, slender foliage and heads of vivid orange-red flowers and kindly in its vigorous and thrifty constitution. July-August. 3 to 4 feet	2.00	20.00

EASTERN LILIUM

	NATIVE	Each	Doz.
CANADENSE. Beautiful, dainty native lily. Graceful and charming25	2.50
CANADENSE flavum. Yellow Canada lily30	3.00
CANADENSE rubrum. Red Canada lily30	3.00
CAROLINIANUM. A showy lily with slender stems, bearing orange red flowers, spotted maroon. Requires a well-drained situation. July-August. 2 to 3 feet50	5.00
GRAYI. A native lily with deep red flowers. One of the finest for planting in shady places. Small rich red flowers, spotted maroon. July. 3 to 4 feet25	2.50
PHILADELPHICUM. A handsome native lily with yellow, cup-shaped flowers, spotted maroon and shaded orange at ends of petals. Good for naturalizing. July. 3 feet. Large bulbs30	3.00
SUPERBUM. 3 to 4 feet. July. lowers bright reddish orange, conspicuously spotted; easily grown and permanent35	3.50

LIRIOPE

Stemless lilies growing in tufts of dark green foliage. In the summer, the lilac, grape Hyacinth-like flowers are borne in spikes above the leaves and last for several weeks. Will grow in sun or shade, moist or dry\$.50 each

LYCORIS

	Each
PURPUREA. An introduction from Japan, but now very scarce. The foliage is produced in Spring and ripens up in August, after which the flower stalks appear, producing flowers in clusters of 6 and 8 flowers of 6 petals each. The bud is wine-color changing to royal purple when expanded, giving a startling and beautiful effect. Perfectly hardy, 2 feet high	1.25
SQUAMIGERA. A perfectly hardy bulb of the Amaryllis family. They produce attractive green foliage in the early spring, which later dies away, and about a month later the flower stalks appear, growing about 2 feet high and developing an umbel of large Lily-shaped delicate pink flowers	1.00

MARICA

GRACILIS (The Flag Lily). This plant belongs to the Iris family. It grows in clumps or tufts, with dark green foliage that bends at the tips. The flower stalks are like the leaves, and the flowers are produced from the edges, near the tips. Flowers white, blue and brownish within. Each\$.75

MARANTA

ARUNDINACEA VARIEGATA (Arrow-Root). A plant with Canna-like foliage growing 3 feet high, variegated with white. For summer bedding or pot-planting in cold regions. Each\$.75

MERTENSIA

- PULCHELLA.** Rosettes of blue green leaves. Stems bearing a drooping cluster of clear blue bells, sometimes tinted with pink. Each\$.75
- VIRGINICA** (Virginia Bells). Porcelain-blue, turning pink with age. Grows 1 to 2 feet high. Has panicle of flowers in short, pendent clusters. Fine to naturalize with yellow daffodils. Each \$.35; Doz.\$3.50

MONSTERA

- DELICIOSA.** Handsome climbing aroid plant with enormous, curiously cut leaves. Splendid for conservatories or "tropical" gardens. Each\$1.75

EARLHAM LARGE FLOWERED HYBRID MONTBRETIAS

Montbretias are of easy culture, preferring a light loamy soil well enriched with leaf mold but no manure or chemical fertilizer should touch the roots. A little bone meal can be used and a light dressing of lime may prove beneficial. The moisture supply should be good and they thrive in the partial shade of borders or shrubbery as well as in full sunlight. If planted in the fall, mulch lightly with peat or a litter but not manure.

In severe climates, spring planting is best and they can be given the same treatment as Gladiolus. Each Doz.

- GOLDFINCH.** The branching heads of flowers are of good size, bright yellow with small maroon blotches at center, outer petals heavily shaded brilliant cherry-scarlet, very decorative 35 3.50

- HIS MAJESTY.** Scarlet shading to gold. One of the finest Montbretias in existence 1.00 10.00

- JAMES COEY.** Flowers very large and open, of perfect form with smooth broad petals, rich deep vermilion-scarlet with golden-orange lustre, center yellow with crimson blotches, very handsome, height, 3 1-2 feet, Award of Merit, Haarlem and R. H. S. 35 3.50

- MARJORIE.** Large open flowers, orange-yellow, with crimson center, a beautiful flower, perfectly flat when fully open, height, 3 feet 35 3.50

- POCAHONTAS.** Rich coppery scarlet, with golden lustre. Center orange with small blood-crimson blotches; flowers large and handsome, height, 3 feet 50 5.00

- PRINCESS.** Brilliant ruby-scarlet, flowers of fair size, center yellow with small crimson blotches, very effective, height, 2 1-2 feet 60 6.00

- PRINCESS MARY.** A beautiful shapely flower, pale yellow petals with red tip, and three of the petals bright crimson on reverse side 40 4.00

- QUEEN ADELAIDE.** Deep orange shaded red on outer side of the petals, strong grower, flowers 4 in. in diameter. Award of Merit, R. H. S. 35 3.50

	Each	Doz.
QUEEN ALEXANDRA. A choice variety with erect habit of growth, chrome-yellow with carmine blotch at base of petals, late flowering, height, four feet, Award of Merit, R. H. S and Haarlem 192650	5.00
QUEEN OF SPAIN. Flowers of large size, brilliant deep golden-orange, reverse of petals golden apricot with small crimson and purple calyx, color very brilliant and effective, height, 2 1-2 to 3 feet, Award of Merit R. H. S. and Haarlem55	5.50
STANDARD VARIETIES		
CALIFORNIA. Deep golden yellow, rounded petals, a very free bloomer10	1.00
FIRE KING. Large glowing scarlet-red, extra fine10	.75

SARNIENSIS (The Guernsey Lily.) A bulbous plant for greenhouse or conservatory, producing heads of red flowers before the leaves25	2.00
MIXED HYBRIDS. Beautiful shades in orange, pink and salmon	4.00	

NARCISSUS GIANT TRUMPET

NARCISSUS

FOR FALL DELIVERY

There are no hardy bulbous plants which have more points of merit than the Narcissus or Daffodils. Perfectly hardy, growing and doing well in almost any and every position, sun or shade, moist or dry. All conditions seem to suit them although they have a preference for a good, deep soil and semi-shaded position and every vacant corner in the garden, amongst the grass, under the trees, etc., could not be used to better advantage than by filling with Narcissus, and every hardy border should have a number of clumps interspersed through it. They are equally suitable for pot culture for winter flowering. Three or four bulbs can be put into a 5-inch or 6-inch pot.

SINGLE TRUMPET DAFFODILS

All Yellow Varieties

	Doz.	100
EMPEROR. Primrose perianth; rich yellow trumpet	1.50	10.00
GLORY OF LEYDON. Pale yellow perianth; long golden trumpet	1.25	8.00
GOLDEN SPUR. Bright yellow. Early	1.25	8.50
KING ALFRED. Rich yellow. One of the finest large varieties	2.50	20.00
MINISTER TALMA. Rich yellow, recurved trumpet. Large flower	1.50	10.00
OLYMPIA. Huge chrome yellow Daffodil, with trumpet a deeper tone	3.50	25.00
PRINCEPS. Early; fine sulphur color	1.00	7.50
PRINCE OF WALES (New). Light yellow, bold and free flowering. A beauty	5.00	
SIR FRANCIS DRAKE (New). Clear yellow, large and very early. Long stemmed show variety	5.50	
TRESERVE. Very large canary-yellow trumpet, broad at the mouth and deeply flanged; primrose yellow perianth	3.50	25.00
VAN WAVEREN'S GIANT. Extremely large, cream-colored perianth; large open mouthed, bright yellow trumpet	3.75	30.00

BICOLORS

The perianth is lighter than the trumpet in this class.

Doz. 100

DUKE OF BEDFORD. Large white perianth with soft yellow trumpet. A magnificent flower	3.75	30.00
EMPRESS. Large, reflected yellow trumpet and white perianth	1.00	7.50
GLORY OF SASSENHEIM. Early. Very large white perianth, with golden yellow trumpet	1.50	10.00
HERBERT SMITH (New). Deep yellow trumpet with large light yellow petals. Fine flower for fine substance	2.50	
MME. PLEMP. The large white petals twist gracefully. Trumpet rich yellow. Late	1.00	7.50
VICTORIA. A variety of great merit. Creamy white perianth, broad yellow trumpet	1.00	7.50

INCOMPARABILIS NARCISSUS

(Large Cup, Shorter than Daffodil Trumpet)

Doz. 100

BERNARDINO. A beautiful new flower. Cream perianth, pale cup edged orange	4.50	
FRANK MILES. Soft clear yellow, twisted perianth; handsome flower	3.50	
GLORIA MUNDI. Bright yellow perianth, orange scarlet cup, vigorous flower	1.25	8.50
HOMESPUN. Perianth, soft yellow, fine expanded cup	1.25	8.50
red cup. Strong grower and free bloomer. Height 18 inches	1.25	8.50
SIR WATKIN. The giant Welsh Daffodil. Wide sulphur perianth with deep yellow cup. Height 22 inches	1.00	7.50
TORCH. Large, twisted yellow perianth, bright orange red crown. Extra fine novelty	2.00	12.50
WILL SCARLET. Fiery orange-red, very broad and open. One of the most striking daffodils	3.00	

BARRII TYPE

Short cupped daffodil, cup measuring less than one-third the length of perianth segments.

Doz. 100

ALBATROSS. A large handsome flower, perianth white, cup pale yellow, frilled, edged orange-red. Height 18 inches	1.25	8.25
BLOOD ORANGE. Pale sulphur overlapping perianth, cup of orange-red, fluted at edge. Very choice	1.00	6.00
BARRII CONSPICUOUS. Large soft yellow perianth short cup edged orange scarlet. Very free flowering. Large mother bulbs	1.00	6.00
FIREBRAND. Creamy white perianth with soft lemon shading at base of brilliant scarlet cup. Height 16 inches	1.00	6.00
RED BEACON. Most lovely flower, ivory white perianth, slightly shaded sulphur at base, prettily fluted cup, intense orange red	3.00	
RED CHIEF. White, with large bold flat cup and broad edge of bright crimson-scarlet	3.50	
SEAGULL. Pure white perianth with canary yellow cup, edged apricot, fine for pots and bowls. Height 20 inches	1.25	8.50

POETICUS TYPE

The essential character is a pure white perianth.

Doz. 100

CHAUCEER. Fine round petals, large flat vivid scarlet cup	2.00	16.00
DANTE. Broad petaled perianth; cup citron-yellow, edged purplish red	2.00	16.00
EPIC. Handsome flower with broad, snow-white perianth, eye canary, with picotte edge of crimson	2.00	16.00
GLORY OF LISSE. The improved "Ornatus"	1.50	10.00
KING EDWARD. Large flower, flat yellow eye with wire edge of orange scarlet	1.50	10.00
ORNATUS. Early, large, round white petaled flowers; yellow cup rimmed red75	5.00
with red eye. One of the latest to bloom50	4.00
SONATE. A late flowering Poeticus of much refinement. Flat lemon eye with very narrow rim of dark crimson	5.00	
(The "Double Poeticus"—See Alba Plena Odorata.)		
RECURVUS (Pheasant's Eye). Reflex perianth		

LEEDSII TYPE (Star Narcissus)

Tall slender stems, flowers white or pale yellow; pointed petals.

Doz. 100

CRYSTAL QUEEN (Giant Leedsii). A flower of great substance, with pale primrose cup, pure white perianth. Very tall	20.00	
EVANGELINE. Pure white perianth and lemon-yellow cup. Extra large and striking flowers	1.25	8.50
MRS. LANGTRY. White, very satisfactory variety for naturalizing	1.00	6.00

	Doz.	100
SOUTHERN GEM. Beautiful pure white petals, large lemon-yellow crown, a splendid flower of rare symmetry, forces well	2.00	12.50
WHITE LADY. White, pale canary cup, flower suggests a small Eucharis Amazonica bloom, extremely hardy in wild gardens	1.25	8.50
WHITE SLAVE. Like previous variety, but cup broader and more heavily frilled, very charming	2.00	12.50

ALL WHITE DAFFODILS

MADAME DE GRAAFF. Pure white perianth, soft primrose trumpet, passing off almost to white	1.25	8.50
MRS. BETTERIDGE. Beautiful pure white flower; perianth broad and imbricated, trumpet beautifully fluted	10.00	
MRS. THOMPSON. Pure white. Strong early flower	2.50	20.00
SULPHUR BEAUTY. Snow white perianth with sulphur yellow trumpet which fades to almost white	1.50	10.00

POETAZ HYBRID NARCISSUS

This type is a hybrid cross between the Narcissus Poeticus and Polyanthus type, having more or less the size of the sus. Flowers are produced in large clusters. Doz. 100

POETICUS without the fragrance of the Polyanthus, Narcis- ALSACE. Petals pure white, yellow eye, large flowered, mostly three flowers on a stem75	5.00
ADMIRATION. Perianth and cup sulphur-yellow with cup edged red	2.00	16.00
ASPASIA. Pure white perianth, yellow eye, 4 to 5 large flowers on a stem	1.50	10.00
ELVIRA. White perianth with yellow cup tinged orange, 3 to 4 flowers on stem, free flowering	1.50	10.00
ORANGE CUP. Creamy-white, orange cup; very free flowering	1.00	7.50
TRIUMPH. Perianth pure white, fluted golden cup	1.00	7.50

OPHIOPGON (Snake's Beard)

JABURAN. This plant resembles the Liriopes in leaf and habit of growth, but it is a more robust plant with white flowers. Excellent for shady locations and growing in pots or boxes35 3.50

ORNITHOGALUM

FOR FALL DELIVERY

	Each	Doz.
ARABICUM. Umbels of large white flowers with black base produced on tall spike. Hardy in the south but should be protected or grown inside for cold climates20	2.00
UMBELLATUM (Star of Bethlehem). Dwarf variety sometimes seen in old gardens, growing in great profusion. Splendid for naturalizing15	1.50
THYRSOIDES (Chincherinchee) Rare species from South Africa. The flower spikes are pyramidal in shape with the buds of straw color changing to pure white. Is not hardy, but should make a good subject when forced, or splendid for outdoor planting in the south50	5.00

RANUNCULUS

FOR FALL DELIVERY

Large flowering varieties. Should be known better for their excellent keeping qualities as a cut flower. Very beautiful for borders or groups. The bulbs have miniature tooth-like projections and should be planted points down. Soak the bulbs overnight and plant 1 inch deep and 6 inches apart in a semi-shaded location. Plant from September to November.

TRITONIA

CROCOSMIA. Spring blooming species, large flowers, light tan in color. Resembles a Freesia and follows them in blooming season1.00 6.00

ROSEA. A very lovely species, bearing in summer dainty spikes of pretty rose colored tubular flowers. A charming little plant, distinct and very free flowering; while the individual flowers of this variety cannot be compared with many of the other named sorts, it is a plant well worth growing and splendid for table decoration, being very light in its habit2.00

TULIPS

**DARWIN TULIPS
FOR FALL DELIVERY**

Darwins are the most satisfactory of all tulips. They are stately in appearance, attaining a height of 24 to 30 inches, and producing beautiful globular flowers of heavy texture in a large range of colors. They blossom in April and May and are unsurpassed for bedding and cutting.

Tulips can be planted from October till late in December. They require a moderately rich soil, which should be well drained. If the soil is in poor condition use a little bone meal or well rotted manure. Plant the bulbs 6 or more inches apart and set the tops 3 inches below the surface. If the soil is heavy, place a small quantity of sand at the base of each bulb. They will remain in bloom for a longer period of time if planted in a light, shaded location.

BARTIGON. Brilliant red.

BARRONNE DE LA TONNAYE. Lovely rose, margined light.

CLARA BUTT. Soft salmon rose.

DREAM. Delicate lilac, very tall.

EUROPE. Bright red, very tall.

GRETCHEN. Soft pink.

KING HAROLD. Very large, dark red.

LA TULIPE NOIRE. The nearest to black tulip.

MADAM KRELEGE. Bright rosy pink, perfect flower.

MARCONI. Purple violet, very fine.

MELCIETTE. Lavender, beautiful shade.

MR. FARNCOMBE SANDERS. Scarlet red, best of its color.

ORION. Dark scarlet, blue center, enormous flower.

PRIDE OF HAARLEM. Brilliant rosy carmine, largest of all.

PRINCE OF NETHERLANDS. Deep cerise rose, very large.

REV. A. EWBANK. Heliotrope lilac, very fine.

VALENTINE. Light violet.

YELLOW DARWIN. Beautiful golden yellow.

VIRIDIFOLIA. Cape bulb. Many long glossy green leaves, wavy on the edge. From the center of these leaves appears a stout stem 1 1-2 to 2 feet high, topped with a dense spike of 25 or 30 flowers of a delicate old rose shade. Requires a shady location3.50 each

WATSONIAS

FOR FALL DELIVERY

A beautiful flower from South Africa, and one which thrives remarkably well in our climate; plants grow from three to five feet high, and produce great spikes of large flowers, which are especially valuable for cutting, lasting a long time in water. The plants succeed best in a rich loam, with liberal dressing of well-rotted manure.

	Each	Doz.
CREAM CUP. White with cream shading25	2.50
DIANA. Lilac-Mauve, free bloomer, early35	3.50
ED. STURTEVANT. Brilliant orange-red, deeper veining35	3.50
FANNY LYON. Apricot buff. aLarge flowers50	5.00
HARRY JOHNSON. Salmon pink with orange and purple tints50	5.00
HAZEL. Deep salmon-pink, orange stripe through petals35	3.50
JAMES MAC GILLIVRAY. Begonia rose with coral tints and dark throat75	7.50

WATSONIA HYBRID

	Each	Doz.
LILIAN BENNER. Rosy-mauve, deeper veining, tall35	3.50
MARION WELSH. Coppery-red with rosy-lavender shading50	5.00
MADAME MODJESKA. Rich deep magenta75	7.50
MRS. J. J. DEAN. Rose pink, deeper shading in throat35	3.50
VICTORY. Deep salmon-red. Extra fine35	3.50
Collection of one each of the 12 new Hybrid Watsonias listed above for \$3.50 postpaid.		
MIXED VARIETIES	Doz. 100 2.50	15.00

WATSONIA SPECIES

	Each	Doz.
ALBA. Tall, pure white species10	.75
AUGUSTA. Bright scarlet35	3.50
BREVIFOLIUS. A low growing species with pink flowers. Scarce35	3.50
BULBIFERA. Orange-red flowers; tall. Curious bulblets growing out from the leaf axillias35	3.50
DENSIFLORA. Distinct and handsome rose colored flowers. Resembles a Delphinium by reason of the density and regularity of its pyramidal shape. One of the most robust species50	5.00
ROSEA. Rosy-lavender. Tall, free bloomer15	1.25

XANTHOSOMA

Sub-tropical plants of great beauty. They are hardy in the lower south, and make attractive plants for summer bedding in the northern states. Decorative for their foliage only. Requires a rich soil.

	Each	Doz.
BATAVIENSE. Dark green leaves, with veins and ribs showing purple on under surfaces	1.00	10.00
MARSHALLI. Quick grower. Green leaves, dark stems50	5.00
SAGITTIFILIUM. Large leaves of pale green. Good border plant75	7.50
TRIOLBA. Plain green leaves and green stems. Leaves three-lobed. Distinct varieties75	7.50

ZEPHYRANTHES (Wind Flower)

Beautiful dwarf bulbous plant, flowering with great profusion during the summer. Very effective for massing in the border.

	Each	Doz.
ALBA. Pure white10	.90
AJAX. Yellow50	5.00
ATAMASCO. White. Native of Virginia swamps35	3.50
ROSEA. Large rose colored20	2.00
STRIATA. Shades white and pink45	4.50

BULB SEEDS

Sow the seed in well drained flats or shallow boxes of soil composed of 1-3 good garden loam, 1-3 leaf mold and 1-3 sharp sand. Place in cold frame or cover with piece of glass. Transplant to permanent location in the garden when large enough to handle.
